As we think, so we are, and since our thoughts are such a vital part of us, we have chosen REFLECTIONS as the theme of our book this year.

Thoughts precede every action; they follow each memorable occasion; happy and warm, sad and serious, carefree and lighthearted — they fill every moment of our lives.

We learn to appreciate through reflections. Looking on the loveliness of the world, seeing its beauty, and sharing in its sorrow, we realize some of the wonder of both through the wonderful power of our minds.

Our thoughts give light to two kinds of understanding — the understanding through which we comprehend facts and ideas, and the selfless kind of understanding through which we purchase the priceless treasure of a friend.

As we grow in wisdom and age, our thoughts become more profound. Even our expressions almost imperceptibly lose their childish look, growing to reflect more the maturing view of life which is deepening in us as we pray, work and play together at St. Agnes High School.

REFLECTIONS

Dear Carol,
This year has really been so great!

POPE PIUS XII

*"A great
light
went out
on earth
and a
new star
was born
in
heaven"*

For nineteen long years Pope Pius XII strove to bind the world to God. At last, the tension caused by the seemingly ever-widening gap proved too much for his body—his own frailest link—and the chain broke. Pope Pius XII was dead.

The whole world felt the loss and this loneliness was in the hearts of individuals. At St. Agnes, we too reflected this sorrow in the unashamed tears which were shed and in the very real feeling of a personal loss.

But though we still miss the earthly presence of this saintly man, we are now consoled by reflecting that he is in heaven, still strengthening that chain to God.

POPE JOHN XXIII

*"So let your
light shine
before men
that they may
see your
good works
and glorify
your Father
in heaven"*

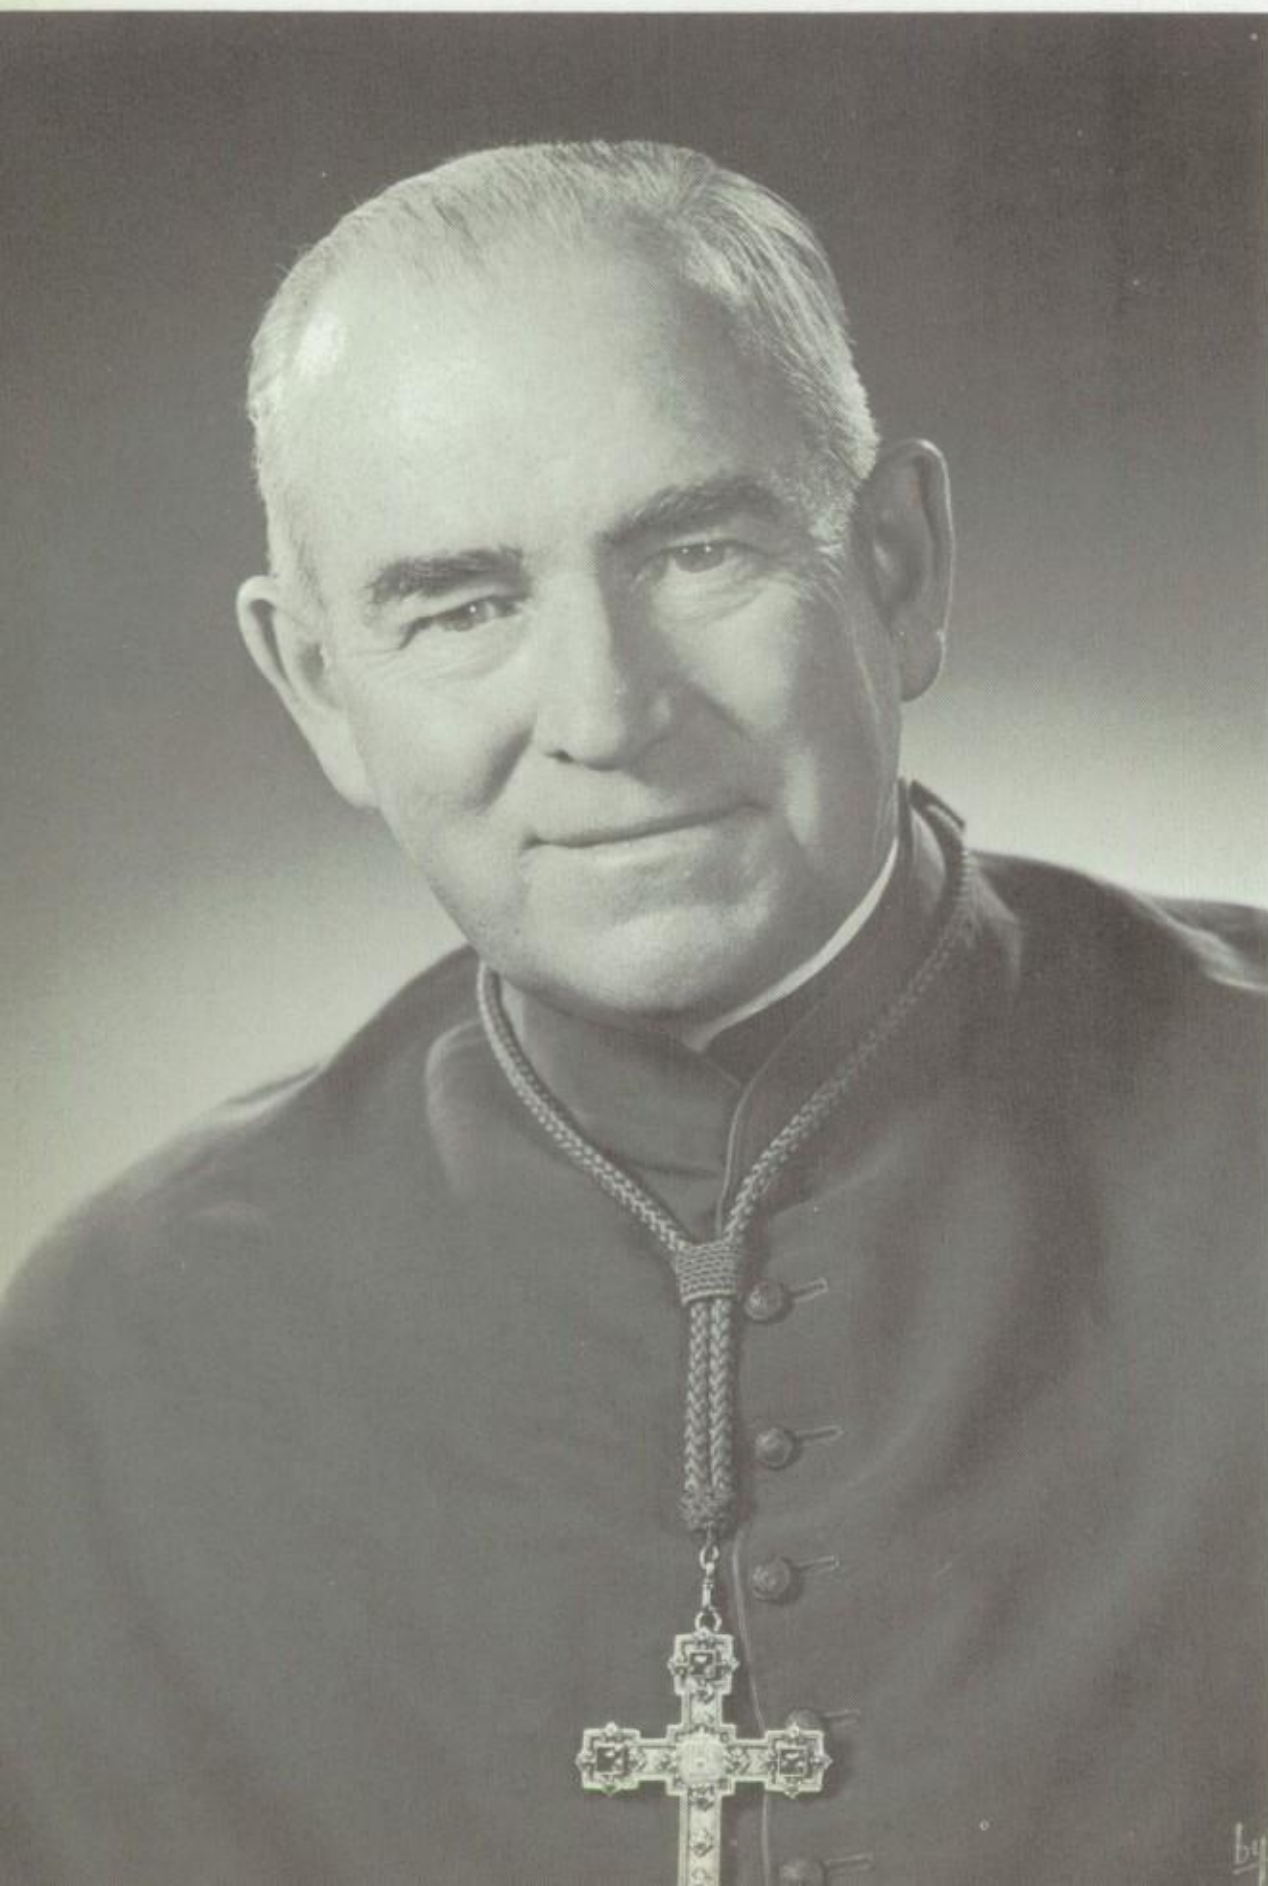

"We have a pope!" Resounding throughout school with these words was the tense joy and unprecedented excitement which gripped every one of us at St. Agnes. Breathlessly we received the announcement of the election of Angelo Cardinal Roncalli, now Pope John XXIII, as the 262nd Supreme Pontiff of the Catholic Church. Assuming his task in one of the Church's most troubled periods, he was following a dearly loved and respected Holy Father—the only one we had ever known. Through the months, however, his warm interest and zealous charity have completely captured our hearts, for we have come to realize that, in our Pope, we have again a true father—another Christ.

AFTER THE DIRECT BROADCAST of the Papal election results over the public address system, true womanly curiosity surrounded every tiny picture of the new Pope which was available.

HIS EXCELLENCY BISHOP KEARNEY bestows a candle on St. Agnes Sodality Prefect Judith Russer at the diocesan-wide Sodality Mass on Candlemas Day.

We treasure the times when our Bishops

"Friendship is a chain of God . . . Each link a smile, a laugh, a tear . . . A grip of the hand, a word of cheer . . ." We're always happiest when we're with our friends, and when Bishop Kearney comes to St. Agnes, we are delighted.

Even when he is not here in person, we have his contributions to our traditions — the crucifix and the painting of St. Agnes on our altar, our school song, the name of our yearbook, remembered words from his fatherly talks — all reminding us of his thought for us.

Because he has truly been our friend, Bishop Kearney will always be a part of our most cherished reflections.

visit us.

St. Agnes' girls are in a special sense "lambs" of God. Therefore, when our Bishops, the Shepherds of His flock, come to visit the school, students radiate extra-special happiness.

Bishop Casey made this year's initial "episcopal visit" to St. Agnes. In September, he offered the Mass of the Holy Spirit in which the fun and work of the year to come were placed under the guidance of God.

Last June found Bishop Casey officiating at the climaxing ceremony of the school year — graduation. As each graduate approached him, she received with her diploma, a bit of the fatherly advice and the warm smile which we associate with Bishop Casey.

BISHOP CASEY smilingly examines Judith Russer's and Alisann Alexander's new beanies which the Seniors had just received.

Countless hours of unselfish and devoted service to the students of St. Agnes fill to overflowing the days of our principal, Sister Rose Alma. Sister is constantly thinking of our welfare — always trying to do the things which will be best for each and every member of her "family".

Anyone who has worked with Sister in any capacity, will be quick to confirm that she is a tireless servant of God, striving constantly to guide those in her care with wisdom and sureness on the path of truth and goodness.

SISTER ROSE ALMA
Principal

"The heart to conceive, the understanding to direct, and the hand to execute."

SISTER ROSE ALMA RECEIVED MANY, many, many Christmas wishes and prayers from the Student body as she and Mary Ann Salamone and Karen Gears here display.

Great thoughts proceed from

Warm, friendly smiles and ever-helping hands are characteristic of our vice-principal, Sister Teresa Edward.

Since she serves S.A.H. as head of the Homemaking Department in addition to this administrative post, Sister's duties are many and varied. During the course of the day, Sister gives attendance slips to tardy students, assists Sister Rose Alma in the maintenance of the school, and teaches those in Home Economics class how to bake apple pies.

So, in many ways, St. Agnes students are grateful to Sister for all she has done.

IT'S A LITTLE HUMILIATING but not at all terrifying to receive a "pass" for being late or out of uniform from Sr. Teresa Edward as Martha Mary Proud, Kathleen Mahoney and Angela Coppola are finding out.

"The greatest truths are the simplest; and so are the greatest women."

Friendly hellos and a happy grin are characteristic of Father LeVeque. During the past five years, Father has become as much a part of our school days as the red and white uniforms which distinguish St. Agnes students.

With endless energy, Father supports every school project: the Thanksgiving Festival in November, the Infirmary Drive in February — in addition to every individual and class interest.

The Fathers' Club, "Father's pet," has now completed its third year of operation. Father LeVeque, as moderator of this organization, is the chief "father" of St. Agnes.

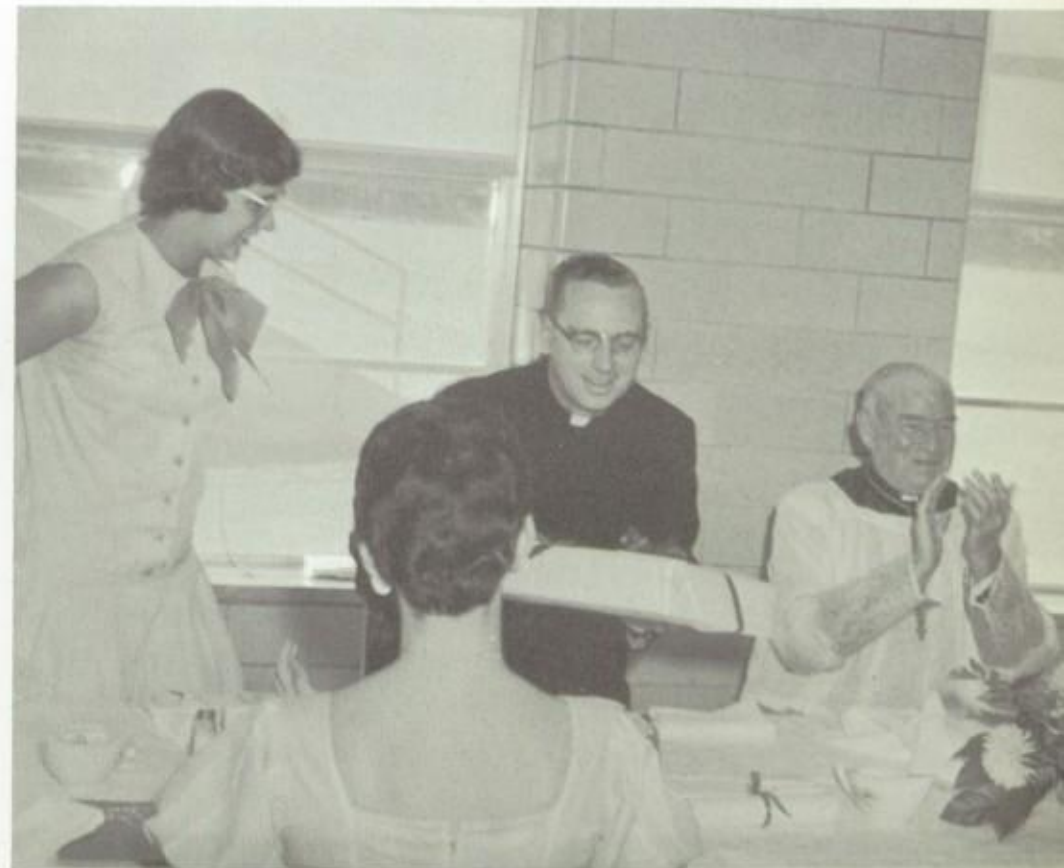

Besides his "extra-curricular activities," Father gives generously of his advice and time as our spiritual director and Chaplain. No problem is too great or too small for him to give his wise and kind attention.

Memories live on and on. Because Father LeVeque has truly been so important to every one of us at St. Agnes, he will always be cherished among our fondest memories.

AT THEIR SENIOR BREAKFAST the Class of '58 said "Thank you" to Fr. LeVeque for helping them unceasingly during their four years at St. Agnes with a gift presented by Class President, Ellen Berardi; Bishop Kearney and Jeanne Hogan join the enthusiastic applause.

"I'LL TAKE IT" says the sparkle in Karen Spang's eyes as she gladly accepts from Father LeVeque the sought after elephant which was given by the Father's Club just before the Thanksgiving Festival.

A school as large as St. Agnes entails much clerical work. There are endless records to be made and filed, absences to be recorded, letters to be sent and answered, and that ever-buzzing switchboard to be tended. These tasks are accomplished by the deft and capable hands of Sister Stella Marie, Mrs. West and Mrs. Hoefen. Together they manage to keep the administrative obligations of St. Agnes High School met smoothly, efficiently and pleasantly.

"FIVE HUNDRED TWO, five hundred three, five hundred four . . ." counts Mrs. West as she bundles up the cafeteria money for a trip to the bank.

MRS. SCHOENHEIT ARRIVES in the afternoon just as we leave, ready to add her deft polish to the competent care given our school.

pleasant efficiency.

Truly, students at St. Agnes are busy from early morning till late afternoon. But there are those whose work continues right around the clock. These industrious souls are members of our maintenance staff.

Mr. Wratni, who is our chief custodian, keeps the grounds and buildings looking neat and tidy. On snowy winter days he can be seen straddling his "ole snow plow," furiously crushing those piles of snow which block our way.

Within the halls of the school, Mr. Kipferl, or as we know him, "Mr. Phil," is also on the job removing obstacles. He is either stacking milk bottles or piling crates.

But our maintenance staff would not be complete without Mrs. Schoenheit, who every night deftly adds the "woman's touch" to bring order from disorder. After all, it must be left in a suitable condition before it can be guarded by our meticulous night watchman, Mr. Shellman, who each night "babysits" for the school.

Due to the efforts of this capable staff, our school always presents a bright and shiny picture.

EACH MORNING Old Glory is raised to lofty heights by "Mr. Phil" Kipferl.

MR. FRANK WRATNI, our chief custodian, whose other name is "Mr. Fix-It," is here engaged in repairing a goal post, one of his "extra-curricular" activities.

MRS. GLADYS GAINS and the Shaw twins, Judith and Janice, probably don't mind the dishes at home at all, after washing and wiping those from one school lunch!

Each morning, enticing aromas filling the air at St. Agnes assure us that the cafeteria staff is busily at work. For, while the students are attending their morning classes, our "connoisseurs" of cooking are preparing varieties of savory food to suit the tastes of everyone.

Careful planning by our dietician, Mrs. Maher, results in menus which delight the palate and provide needed energy for those afternoon classes.

Baking and cooking aren't all that comprise the work of the cafeteria staff, however. After each shift, piles of dishes and numerous pieces of silverware are washed and dried. Then, the tables which have been well used by St. Agnes' eight hundred students are wiped spotlessly clean for the next day's use.

Working together for the same purpose — to satisfy the appetites and provide for the nourishment of the students—our cafeteria staff functions smoothly day after day.

SMOOTH FUNCTIONING and planning of our lunch system is due largely to the efforts of Mrs. Maher, dietician and head of our cafeteria staff.

MRS. MAXWELL and MRS. STALEY daily see to the swift and efficient serving of our lunches.

smile is the Cafeteria staff.

If Duncan Hines had ever visited the St. Agnes "restaurant," he would surely have placed its name on the top of his preferred list!

Juicy hot dogs, tasty dishes of ravioli, and sometimes even special treats such as roast turkey and chicken a la king are just a few of the flavorful lunches made available in the St. Agnes cafeteria.

This year, a new and very successful system was set up, by which the Freshmen start off the lunch period at ten minutes to eleven, with the influx of Sophs, Juniors, and Seniors at intervals of fifteen minutes respectively. Each class has a half-hour lunch and a fifteen-minute homeroom period.

Each day, the long line of girls who anticipate the hot lunch is a sure sign that the delectable varieties of food are appreciated by all. To top off the lunch, delicious desserts such as crispy apple brown Betty's, tender cherry upside-down cakes, and luscious lemon chiffon pies are served, with apples and ice cream as extras.

No wonder most girls ignore their diets and come back for second helpings!

GREAT CARE IS TAKEN in the preparation of our lunches. Here Mrs. Gurnow and Katherine McGowan remove some tasty baked apples from the oven.

AS SISTER NORBERTA and Mrs. Maxwell serve soup, and Mr. Phil replenishes the supply of milk, the Freshmen Suzanne Paradies, Anne Bailey, Kathleen Schmitt, Ida Tuttobene, and Geraldine Zachary help themselves to delicious baked apples.

DAILY REFLECTIONS

We reflect our learning and knowledge in various phases of our lives — at home, in school, among our friends — but just now some of our best thoughts are acquired when we are participating in classes, for it is here that we constantly strive to grasp each idea which will help us lead fuller and better lives.

In order to pursue our everyday studies, we must use the power of thought with the intention of enriching our minds. Studying teaches us to think for ourselves, to conceive ideas which develop our intellect, to contemplate views which broaden our interests. None of these can be accomplished without earnest thought.

And ultimately, our reasoned reflections direct our thoughts toward Him Who bestowed on us this wonderful gift of intellect.

JOSETTE BEAUBIEN, Secretary of the National Federation of French-Speaking Sodalties in Canada, and guest speaker at the Day With Mary in March, graciously autographs Mary Ann Scrofano's program with the same charm with which she captured her audience's hearts.

TO AID IN ST. AGNES' PART in the Sisters of St. Joseph Infirmary Drive, Bishop Kearney donated a beautiful hope chest "complete with everything but the man." Patricia Toomey, Class of '62, was the envied winner, and she here excitedly looks over some of its contents with classmates Sheila Belli and Margaret Burke.

Memories are

MAY DAY in the year of the Lourdes Centenary was particularly lovely, with the candlelight procession to the replica of the Grotto on our stage.

What in the world has happened? So *much* during this past year! Some events are known around the world and others are significant only to us at St. Agnes — but all make up our hi-lites of memories of 1958-1959.

Back-to-school days brought a national crisis in the South where the question of integration caused uprisings and strained U. S. relations around the world.

In October, Our Holy Father, Pope Pius XII died, and several weeks later, we witnessed the election and coronation of Pope John XXIII.

The Space Age became more advanced with our launching of satellites around the moon and sun.

Texas lost its prominence as the largest state in the Union when Alaska was admitted as the forty-ninth state in January. In March the stars on Old Glory were again increased to fifty—when Congress approved statehood for Hawaii.

World wide tension was increased with the Russian proposal to merge East and West Berlin.

History repeated itself in December when Chicago witnessed another spectacular fire — the burning of Our Lady of the Angels School which took ninety-two lives.

Spotlights were focused on Hollywood on April 6th for the Academy Awards when "Gigi" received the Oscar as the best picture of the year.

On April 17th, Bishop Kearney left for Rome to deliver his "Ad Limina" — a report on the progress of the diocese — to the Holy Father.

LIFE IN A GOLDFISH BOWL was the lot of our "celebrities" at the hands of yearbook photography staff, Barbara Martin, Margery Palmer, Sharon Reedy and Gloria Stone. The celebrity in this case is Karal Marling, who won a week's trip to California in the "Shaggy Dog" Contest.

made of this...

Leotards, spool-heels and Empire waists hi-lited the Fashion World with only a faint memory of the chemise.

From September, when we returned to school to find a neat new schedule featuring a general school-wide study period to start the day and an alternating "lunch-religion-homeroom" period at noon, right up until June, when the Class of '59 became the first to graduate at the Eastman Theatre, events have occurred, adding new thoughts to our memories of 1958-1959.

ALTHOUGH ST. AGNES HIGH walked away with many honors at the Diocesan Science Fair, Carole Smith and Bill Bruckel find that it takes more explanation to convince Johnny Bruckel that guinea pigs are fascinating, than it took to convince the judges.

ON THE OCCASION of Bishop Kearney's 25th Anniversary as Bishop, Barbara Hoffman and Sharon Kelly presented him with a spiritual bouquet from the students of St. Agnes.

IN ACCORDANCE with the Pope's request, Freshmen Kathleen Schmitt, Kathleen Lebbon, Carol Corcoran, Sharon Slocum, Marilyn Smith and Lorraine Pearson are polishing the pronunciation of "Introibo ad altare Dei" for the Dialogue Mass.

Anyone noticing the load of books we carry on our way to and from school is sure to see a variety of titles—Latin, Chemistry, French, Algebra — but a closer look would reveal a "Faith in Action" book on every arm, for all our diversified future plans lead to one goal which we reach with more certainty through our study of Religion.

As Freshmen, we study the life of Christ, while as Sophomores we delve into a thorough study of the truths of our Faith; Church History is intricately investigated by third year students; as Seniors, we culminate our religious training with a course in Apologetics where we strengthen the knowledge we have already learned so that we are prudent and convinced Catholics.

Living and loving our faith will, in a sense, keep us together long after we graduate from St. Agnes.

Religion reflects

REVIEWING THE LIFE of Pope Pius XII in Church History class brought thoughts of sadness as well as pride to these Juniors, Alice McCormick, Kathleen Slayton, Marilyn Mumford, Kathleen Alderson and Teresa Donnelly.

AT THE CLOSE OF RETREAT, a Democrat and Chronicle photographer caught the joy of the students, ready now for a jubilant vacation.

One morning in March, the halls at St. Agnes were filled with uniformed girls, but the chattering voices, zippy hustle, and banging locker doors that usually accompany them were missing. It was the second day of Holy Week and the beginning of our three day retreat.

Each day began thus, not with the usual shrill call to classes, but with our assistance at the Holy Sacrifice of the Mass. Pensive moments were spent at conferences, with Father Richard Madden, Director of Vocations for the Carmelite Fathers, the retreat master for Juniors and Seniors, and Father Eugene Mc-

Farland, Diocesan Youth Director and director of Camp Stella Maris, guiding the Freshmen and Sophomores.

During the Retreat, the students thought over the past year and, looking ahead, made a few resolutions for the future to set their standards higher. For many Seniors, it was a thought-provoking time in which they made important decisions for their years ahead.

At the close of our retreat, sparkly eyes — the "windows of the soul" — reflected real happiness in those who had truly tried to spend this time well.

AMONG THE FRESHMEN SODALISTS who worked hard on the project of preparatory prayers for Retreat were Cheryl McGuire, Nancy Gianforte and Joan Wegman.

Action is born

One of the active and practical ways of applying the lessons learned in Religion classes is membership in the Sodality of Our Lady. This is not just another club, but a way of living.

As Freshmen, St. Agnes students are invited to join the Sodality, and during the ensuing year they become acquainted with the whys and wherefores of the Sodality aims.

Sophomore, Junior and Senior Sodalists, having been formally received into the Sodality, now realize both its purpose and value, and concentrate on becoming good members. Mainly, they strive to grow in personal holiness, always remembering the all important point of drawing others "to Jesus through Mary."

ONE OF THE BIG SODALITY PROJECTS this year was the Family Rosary Campaign. Here Sodalists Kathleen McCusker and Mary Hicks discuss the results of the second school-wide survey with Sister Elaine Theresa.

AT THE LOVELY CANDLE-LIGHT CEREMONY on May Day last year, a candle representing each homeroom burned before the Shrine of Our Lady of Lourdes. Kathy McCarthy, Ruth Maier and Sue McGlynn, Senior homeroom representatives, are pictured here.

WHAT ARE THEY? Why, Moslems of course! After their native dress was so aptly explained and dramatized by Father Tierney, a missionary in Pakistan, every St. Agnes student knew this fact, especially his models, Diane Szatkowski and Kathleen McCorry.

of belief.

BUSILY SETTING UP the favorite booth(refreshment) for a fun-filled Mission Day are Larry Shelton, Geraldine Benzing, Dave Hassett and Mary Kay Clendenning.

AT THE MISSION CONVENTION held at Notre Dame University last summer, Barbara Seils and Jean Klier met Sister Helenmarie, a Holy Ghost Sister who is from Rochester. In October, Sister Helenmarie was able to visit her home on her way back to Africa and stopped at SAH to give a fascinating assembly talk on their mission in Ghana.

Stamps, pennies, nickles, and dimes of student sacrifices, and ideas often flooded room 106 when the Mission Council met. There, busy hands and minds worked with dexterous determination under the direction of Sister Dorothy Ellen.

On October 31, the Council undertook the first of its two biggest events — the annual Mission Dance which this year was named "Hallowe'en Fantasy."

Mission spirit was also pepped up at assemblies in the auditorium. In November when Sister Helenmarie, a Divine Word missionary from Africa, came to St. Agnes, students could feel those snakes she described crawling right up their spines. Enthusiasm and gales of laughter reigned in December when Father Tierney, enthralled his audience with his experiences in Pakistan.

Bursting balloons, laughter, and shuffling feet filled St. Agnes in May at the annual Mission Day — the most important undertaking of the Mission Council. At the fun-filled day, students and their friends went "all-out" for the missions.

To crown the King's English with perfection is the aim of every English student. Constant chatter in and around St. Agnes proves that we have truly mastered fluency in the English language, but this is only one result of our studying English.

Creative writing and an appreciation of great literary works are just as important.

As Freshmen leaf through the pages of short stories such as Rudyard Kipling's "Wee Willie Winkie" and Van Dyke's "The Other Wise Man", they revel in the realm of the imagination which unfolds in books.

Sophomores often become so enthralled with such novels as *Spring Comes On Forever* that they can "feel" the winds from Nebraska blowing right past. Writing on the spur of the moment helps them to become fast thinkers.

Hearing records of Judith Andersen in "Medea" and Jose Ferrer as "Cyrano de Bergerac" captivates Junior English students in their Drama study. They agree that it is the most "painless" way of learning to appreciate literature.

The scope of English opens wide to the Seniors who, while struggling with essays and sonnets and reading the involved works of Shakespeare and Chesterton, learn to love their cultural heritage.

CLEVER ENGLISH I STUDENTS wrote and directed the skit presented to the eighth grade girls on the day of Entrance Exams to show life at SAH: (on floor) Carol Niger and Patricia Conlon; (seated) Pamela Edd and Karen Krapf; (standing) Roxanne McDonald, Patricia Cooper and Jean Alderson.

French II, Library Club Moderator,
School Librarian.

SCANNING BOOKS, catching up on assignments, and writing term papers, all S. A. H. students make good use of the library.

When we think of the library, the first thought that enters our mind is books—old, new and overdue. Old books with smudged pages tell of those who have spent hours in absorbed interest. Torn bindings relate journeys in sun and snow — and mud-puddles. New books are those that still smell of glue and ink with pages that crinkle and flap back as you turn them—pages unbelievably white. Overdue books cause the borrower much anguish, dismay and shame. These books seem to lose themselves in the hidden corners of dark rooms.

Our library contains innumerable books which are suitable for each class in the school.

Besides good books, our library has a pleasant atmosphere. Its location on the third floor, the lovely view of the school entrance, and the quiet which reigns as in all libraries make it an enjoyable spot.

Most striking is the prevailing air of helpfulness which is personified by our librarian, Sister Mary Stephen.

Seniors in the Library Club, too, soon contract this helpful air and while most students are "taking," these girls are giving—study halls and energy to make our library even more pleasantly efficient.

OFF THE LIBRARY is the work room where library club members, such as Joanne Briener and Jean Klier, help Sister Mary Stephen mark, stamp, catalog, accession and cover books.

For forty-five minutes every day, St. Agnes students leave the ordinary hustle-bustle of high school life to tour through the realms of history.

Freshmen find themselves involved in the mystery of money and finance in their Economic World classes.

In World History, Sophomores get a bird's eye view of past events all around the world from ancient times right up to the present day.

Juniors are eye witnesses at Yorktown, Gettysburg and Pearl Harbor in their course of American History.

In Problems of Democracy, Seniors specialize in world-wide traveling. Trying to "solve" the ticklish situations of today's trouble spots, they learn better to understand the world's people.

CHRISTMAS CUSTOMS change, although the thought remains the same. Pauline Angione, Ruth Egan, Donna Coddington, Jean Alderson, Marianne Villa and Joyce Koehler are some of the Frosh History students who made displays showing the customs in foreign lands.

"A WORD FROM THE WISE" is given by Sister Edwardine to two future voters, Jean Rodman and Angela Foster, on the complexities of manipulating the voting booth at City Hall.

giving insight to the future.

Timon Club members could be dubbed the "Happy Wanderers." On Friday afternoons twice a month, Sr. Edwardine and the club take a busman's holiday sightseeing at the museum, the art gallery and places of historical interest throughout the city. On their expeditions, they become acquainted with past events the "painless" way.

Some meetings are spent watching movies about the governments and countries of the world. Through them the Juniors and Seniors in the club learn to know better the world and its people — a vast topic indeed!

Languages

VIRGINIA HAMMER, MARGARET BRIODY, ANN STAHL, and Nancy Schusterbauer helped to fill the front hall with Christmas cheer when they decorated the bulletin board with the clever Latin cards designed by Mrs. Stinson's Latin classes.

Battlegrounds of Caesar, exciting plots against Cicero and the daring adventures of Aeneas on land and sea are just a few of the thrilling experiences met with in studying Latin, for Latin is like a window through which we clearly see the "grandeur that was Rome."

"Parlez-vous francais?" can rightly be answered "Oui" by the mesdamoiselles at SAH, for, besides learning the fundamentals of French, they are encouraged to speak it as fluently — well, almost — as English.

Gay Frauleins are now able to sing "Du, Du, Liebst Mir Im Herzen" and understand what they are singing about, as they pursue the study of German with the national virtues of thoroughness and patience.

increase our cultural appreciation.

Many frauleins, mademoiselles and puellae do not find the class period sufficient time to spend in Bonn, Paris, or Rome; therefore, our language clubs flourish.

Tapping their feet to folk tunes and raising their voices in traditional melodies from along the Rhine comprise a fun-filled schedule for those who attend German Club meetings.

Mademoiselles of "Le Cercle Francais" are as gay as Parisiennes especially on the feast of St. Catherine. On this day, the members make and model charming "chapeaux" to catch their "beaus."

Midst togas and tunics, the girls in the newly-formed Latin Club delve into the customs of the ancients, and are striving to revive the so-called "dead" language with their own quick spirits.

MEMBERS OF THE LATIN CLUB, Barbara Nowack, Susan Goschar, Grace Dalton and Jacqueline Vallot, helped to prepare the club's constitution prior to its affiliation with the Junior Classical League.

It has been a rather generally accepted fact that mathematics and girls can never be close friends. However, here at St. Agnes, this idea is daily refuted as x^2 and y^2 walk hand in hand with the Freshmen and Sophomores. Of course, Juniors and Seniors are more particular in their tastes. Why, they wouldn't think of being seen with anyone except $\sqrt{b^2-4ac}$ or perhaps $f(x)=2x^2-4x$.

As the girls become better acquainted with these numerical comrades, they start to realize their true worth. No longer do they regard them merely as passing fancies, or worse still, as imaginary nonentities. Rather, they view them in a new light, recognizing their practical usefulness and cultural value.

for a successful future.

Saint Agnes has top-flight secretaries—figuratively and literally! A flying one-day tour from Rochester to Wall Street was made last year by Sister Theresa Daniel, head of the business department, and a group of business students — another proof that pounding a typewriter is not the extent of commercial courses.

On the figurative side, daily fuel is supplied by developing abilities in accuracy, efficiency and responsibility. General Business and Basic Math are ground training commercial subjects. From there, business-minded girls soar up into typing, shorthand, and office practice. Running almost all school communications off on the ditto and mimeograph machines are constant "short flights."

Navigation in the business world broadens when members join the Business Club. Well-planned schedules of business reconnaissance, such as visiting various business concerns, are planned by the officers.

They have reached the moon! When this news flies around the world, it will not seem too spectacular to today's science students. Aware of all the wonders of past discoveries, they are constantly delighted — but not particularly astonished—by the unveiling of God's plan for the universe.

Here at St. Agnes the Freshmen are first introduced to the intricacies of this field in General Science—a cursive study of this Universe. Biology offers joys and sufferings to the Sophomores and Juniors with its exposition of that wonderful gift—Life. Our scientific study is climaxed as Seniors, in the formula-filled, constantly changing subject of Chemistry.

With this background, all are better prepared for life in our science-minded world.

SOME SCIENCE MINDED FRESHMEN, Kathleen Ward and Jean Alderson, demonstrate their knowledge of the magnetic field while Janice de Young, Linda Iacelli, and Mary McDonald experiment with batteries.

Under the watchful eye of Sr. Muriel, the club cared for mice and guinea pigs among its projects for the Science Fair. They also published their very own newspaper, "Pius XII Post."

Junior and Senior members of Pi Kappa Sigma take pride in having their experiments work and the club's moderator, Sister Maria, takes care that no explosions occur. From December to February, members worked on such projects as crystallography, cloud chambers and polymers for the Science Fair.

A dark room is spooky to some people, but to the Camera Club it is fascinating, especially when the pictures they have posed and taken appear. With the help of slides, movies and books from Eastman Kodak, Camera Club members are fast becoming proficient and competent shutterbugs.

GETTING THE RIGHT AMOUNT of light on the negative takes practice and persistence as the pensive looks of Diana Laskowski and Barbara Munch, Camera Club members, indicate. Soon they'll be smiling proudly when the picture appears.

COMBINED EFFORTS of General Science, Chemistry and Biology students produced a truly tremendous Science Exhibit. Mary Jean Farchione and her Dad are here just beginning the tour of the wonder-filled gym.

Public Speaking, a more extensive study of speech, is offered to the Juniors and Seniors. Individually, they acquire the gracefulness and poise necessary for becoming effective speakers.

the "womanly" arts.

Some of the most pleasant hours at St. Agnes are spent in the Homemaking Department. Enticing aromas often float from rooms 112 and 113 giving positive evidence that our "Betty Crockers" are gaining in proficiency. Frilly aprons and the latest fashions result from dexterity with needle and thread and the creative designing of the sewing students.

Homemaking in a nut shell is given to Seniors in a

special course, which helps prepare them for the efficient management of their own households.

In November, students viewed with envy the elegant fashions modeled by members of the Homemaking Club in a fashion show sponsored by McCurdy's. Other activities of the Homemaking Club, such as a trip to the R. G. and E., add that extra touch of finesse to the talents of our homemakers.

Rain or shine, St. Agnes always has justifiable "pride-beams" radiating throughout the art room. Students in Basic Art, and Drawing and Painting may not be as good as Rembrandt yet, but they learn to make the most of their talent.

Anyone popping into the art room is always sure to find such enterprises as hallowe'en masks, Valentine Mobiles, self-portraits, character dolls, and "crayon drips."

The Poster Club is a new addition to the Art Department at St. Agnes. Every Monday afternoon, its Freshman members are found with paints, brushes and ideas as they create catchy posters to announce all the big events at school.

With all these interesting activities, no wonder enthusiasm always reigns in the art room.

Melodic strains of song often float through the first floor at S.A.H., and, if one should trace the origin of these angelic-like voices, she would discover that they belong to the girls in the Voice Culture classes.

For the first few weeks of school, Sister Anne Virginia and Sister Joseph Eileen help their musically-inclined students to overcome the fear of singing solos. Then, after the "frogs in their throats" disappear, the girls acquire vocal finesse and even find enjoyment in "showing off" their voices to their fellow vocalists.

Although not all the students in Music Appreciation Class can pronounce Peter Ilyitch Tschaikovsky's last name, they certainly are able to recognize his music when they hear it. Besides listening to Tschaikovsky's masterpieces on record, Sister Leo Xavier also "takes the girls to the concerts" of other famed musicians such as Bach, Beethoven, and Chopin.

Whether taking Voice Culture or Music Appreciation, each girl acquires a truer appreciation of music, contributing greatly to her cultural background.

JUDITH MURA, A MUSIC APPRECIATION STUDENT, explains to her fellow classmates about the life of Chopin. Kathleen Van Allen, Judith McSweeney, Margaret Cousineau, and Karen Dougherty listen attentively.

AMONG OTHER USEFUL FACTS, Health Students learn how *not* to sit, as demonstrated by Rosemary Diehl — and the correct sitting posture, shown by Veronica Randle.

FRESHMAN GYM CLASSES learn to stay slim and supple—doing "push-ups"!

Control of mind and body

Knowing what happens in the body from tip to toe is the interesting course mastered by Health students. Five systems—with all their parts—and two hundred four bones seem innumerable at first, but Health students soon can place and name most of them.

Sister Isabel, who prescribes pills in the Clinic and teaches Health, also presides at the Future Nurses Club which is brand new and very active. In February and March, our future nurses donned crispy pink and white striped uniforms for a seven week training course at St. Mary's and General Hospitals. Having learned to take temperatures and to distinguish medicines with accuracy and efficiency, these students then actually worked in the hospitals.

is taught and practiced

Usually waddling like a duck isn't considered in too good taste, but the best waddlers in the gym classes are the envy of their classmates. The duck walk, forward rolls and headstands are all part of tumbling, one of the favorite "subjects" of gym.

In addition to the usual sports — volleyball, basketball, soccer, ping pong, badminton, shuffleboard, and baseball — archery is offered for the William Tells of S. A. H. Although they had better not try to shoot an apple from anyone's head, students have lots of fun with this activity.

Camping is the newest addition to the Physical Education program. In it, Seniors learned all the tricks of successfully "roughing it."

Women drivers from the Driver Education program are no longer a "threat" to society. In this popular course, students learn to control the car and change flat tires as experts.

POGO STICKS were in vogue this year in the gym, and Seniors Kathleen Fischer and Mary Beth Pfromm are determined not to be left behind.

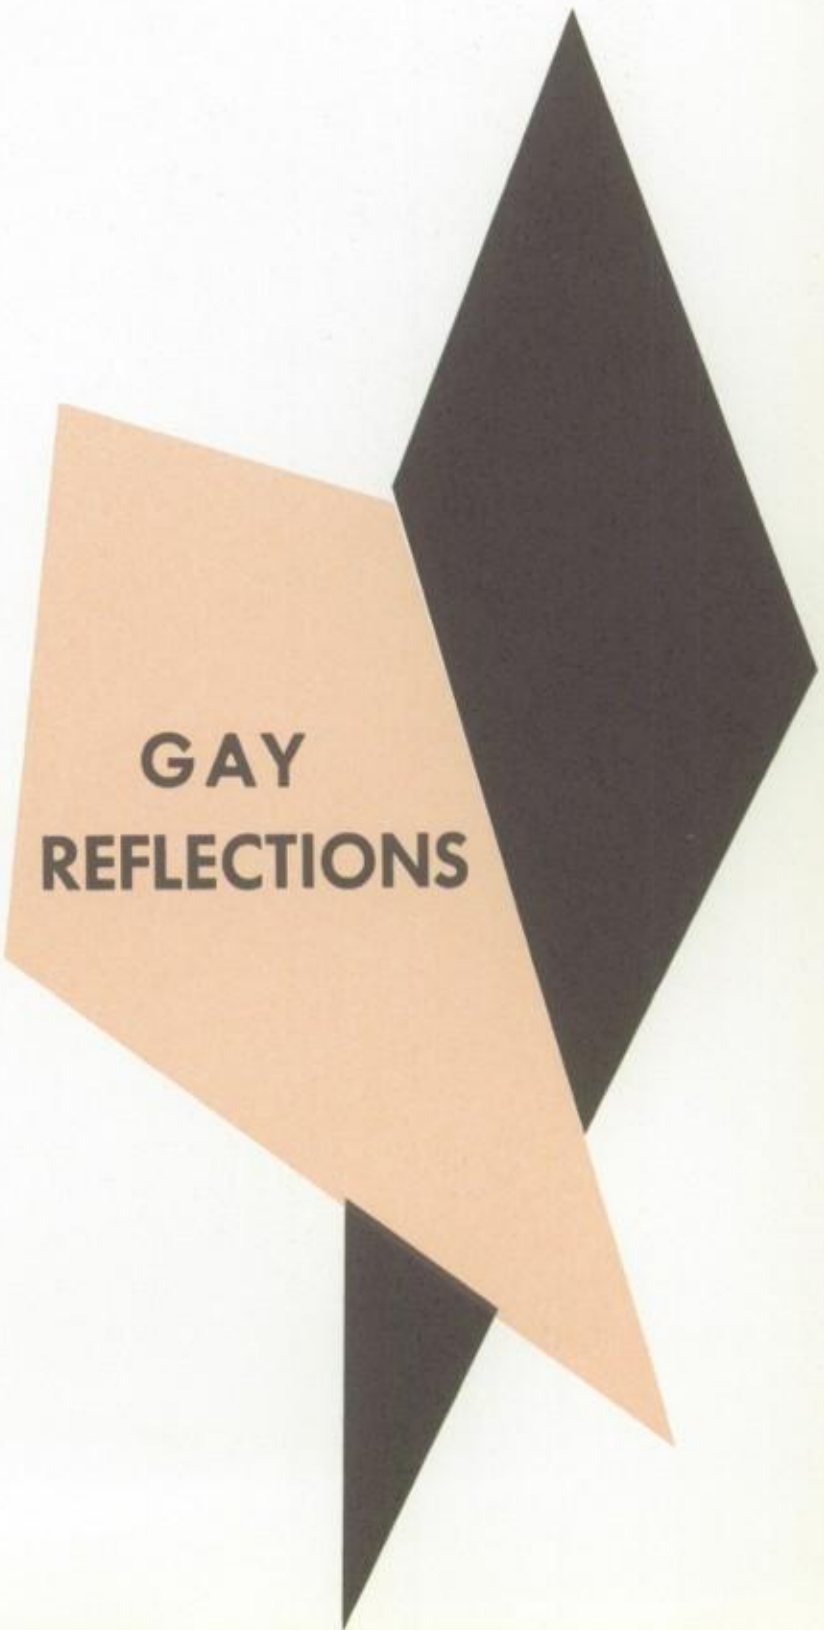

MISS KING smiles happily as she checks Nona Mihr's "markless" driving license while Sharon Griffen, Barbara Munch, and Mary Alice Lau-meyer wait their turn. Because of our safe driving records, St. Agnes placed only $\frac{1}{2}$ point behind first place in the Monroe County Safety Council Contest.

During the day, our halls are silent as we study and reflect on new knowledge in our classes. Then, at 2:30, they become alive with bustling activity and light-hearted laughter as we anticipate fun-filled moments of afterschool activities. Determination and enthusiasm for each undertaking abound, reflecting our pride in and love for our school.

Genuine happiness dwells in our hearts because in perfecting each activity, we are rendering our talents to others — in Glee Club and Freshman Chorus we give our voices; in our publications, our writing ingenuity; in Student Council, our ideas; in Missions and Sodality, our prayers and sacrifices.

With each activity, we learn to grow in interest, showing that we care to share each others' triumphs and failures, to close our eyes to the faults of others and to open them to our own, making each moment truly valuable and each memory a cherished one.

GAY REFLECTIONS

A COUNCIL-SPONSORED SURVEY, part of which was displayed by this bulletin board, being planned by Alysandra Capuano, Linda Embser, and Kathleen Laverne, showed the value of our cafeteria lunches.

"Out of many, one" could very well signify the objectives of the Student Council at St. Agnes. Through it we all, faculty and students, join together, producing the spirit of efficiency, friendliness and togetherness which is so outstanding in our school.

In September, shining gold pins awaited the newly elected homeroom representatives in Student Council, and at the formal induction ceremony, their proud faces beamed as brightly as these signs of office.

Students wasted no time in renewing old acquaintances and meeting new friends when they came back to school in September, for Student Council promptly inaugurated "Get Acquainted Days."

Mobiles and murals transformed the gym into a Valentine fantasia for the annual Student Council Valentine dance. "Hearts in Harmony" was both the name and the result of the dance that memorable evening.

Things were "topsy-turvy" at St. Agnes one day in May when students and teachers switched positions. Hilarious moments filled this Good Citizenship Day — a brand new idea of Student Council.

Each event of the Student Council binds us a bit closer together in our loyalty to St. Agnes, helping to make the school spirit we talk about so much a living reality.

Extra! Extra!

FAITHFUL TO CHECKING on their assignments are reporters Joanne Richardson, Barbara Munch, and Joyce Furlong.

You say your head hurts from thinking too much, and your feet ache from always dashing around, and your nerves are almost shattered? You say your heart proudly goes pitter patter, and you often sigh with satisfaction as you collapse into the nearest chair? Then you must be a reporter for *The ESSAY* —and you can justifiably be proud and tired!

Captions, headlines, pictures, copy and deadlines create quite a bit of confusion and last minute rushing on every issue for the staff. But this can never be detected in the finished products, for each one is systematically laid out and enticingly interesting.

The *ESSAY* is now in its third year. Every issue seems to be the very best possible, but then when the next comes out, we find it to be even better. This year, *The ESSAY* has grown in dimensions and in number of pages — from four to six. Its growing size reflects our ever increasing enthusiasm and interest each time another issue comes to St. Agnes "hot off the press."

SEEING THEIR OWN ARTICLES IN PRINT is thrilling to reporters Ann Ripton, Maureen Tucker and Maureen McKay as they fold the papers soon to be delivered to the rest of the school.

Read all about it!

BUSY EDITORS Martha Slavin, Alice Conway, Barbara Coddington and Linda Dominik paste up their pages — the last step before the "Essay" goes to press.

"It's here! It's here!" bubble the first ones to see the PALM of '59 arrive. These excited cries announce not only the long-anticipated arrival of our yearbook, but also the culmination of many months of hard work and pleasant memories for the Staff of '59.

Back in September, we began our work in earnest with the annual Patron Drive, marked this year, for the first time, "Seniors Only." Then, spurred on with the news that the '58 Palm had been rated All-American, All-Catholic, and Medalist, we began planning "our" Palm, hoping to produce as treasured a memory book as last year's.

In October, two Staff Editors, Nancy Ritz and Kathleen Sheppard, proudly accepted the First Place award for the '58 issue — a coveted mark of excellence from the Gannett Publications Conference, never before won by St. Agnes.

SCANNING "HUNDREDS" OF YEARBOOKS from other schools highlights "do's and don't's" for our "Palm" chiefs-of-staff: Patricia Burke, Business Manager; Mary Ann Kinsky, Copy Editor; Nancy Ritz, Photography Editor; Judith Weber, Editor-in-Chief; Kathleen Sheppard, Layout Editor.

OUR OWN SPELLING can be puzzling some times as Joanne Breiner, Mary Ann Berg and Carol Wilfeard discover when they copyread the galley proofs.

November brought some of the most memorable events of their Senior year to the three editors, Judith Weber, Patricia Burke, and Mary Ann Kinsky, who with Essay editors, Bettie Schnacky and Joyce Furlong, spent a weekend in Milwaukee for the National Catholic Press Convention. They came home full of plans and ideas, and fascinating explanations for the two-day delay in Chicago!

At our Christmas Party, the center of attraction was not the delightful decorations, nor even the delicious food, but the layout of the book which Mrs. Gunner and Mrs. Cronk brought with them from the Du Bois Press.

Christmas vacation was spent preparing for the first deadline. Exams in January did not deter us from writing copy, taking pictures, proof reading and typing endlessly. The pages were gradually completed and our dreams of the book slowly moved into the realm of reality.

Now, with our work over, and the finished '59 Palm in your hands, we hope it reflects truly the spirit of St. Agnes High.

Take twenty mellow-toned altos, mix with thirty honey-voiced second sopranos, and add thirty mellifluous sopranos, and you have the ingredients comprising the delightful recipe which makes the St. Agnes Glee Club.

"Zestful" touches are added each week to the group's singing by its director, Sister Joseph Eileen. On Wednesday afternoons, the eighty envied members convene in room 101 where they smooth out their tones and gain polished poise for their performances.

On three separate occasions in October — Sister Rose Alma's feast day, the feast of Christ the King, and the Requiem Mass for Pope Pius XII — the Glee Club's angelic

tones filled the auditorium while exercising their very greatest privilege — praising God. In February, they were again so privileged when they sang the annual Diocesan Sodality Mass of the Purification at St. Michael's Church.

In December, they added a festive note to the Mother's Club Christmas Party and the Christmas Assembly.

Tapping toes and nodding heads were detected at the Spring Concert in May when the Glee Club again performed superbly.

The striking appearance of the Glee Club, in their white gowns and red satin ribbons, and the sweetness of their voices always blend together for an enticing performance — perfectly enjoyable.

With melodious voices,

SISTER ANNE VIRGINIA SMILES ENCOURAGINGLY at Sheila Belli as prospective members of the Freshmen Chorus look on with interest and approval.

Freshmen captivate their audience.

Early in September, eighty Freshmen squealed with glee as they anticipated delightful moments in the Freshman Chorus. They had "survived" auditions, and their voices were deemed worthy to be heard at special occasions during the year.

On December 8th, their poise and perfection charmed their audience—admittedly a partial one—at the Mothers' Club Christmas Party. Caroling "In David's Town" and "The First Noel," the Freshmen added sparkle to the Christmas spirit which was beginning to fill everyone's heart.

At our Christmas Assembly, the Freshman Chorus again lent their strains adding extra enjoyment to the festivities of the occasion.

During more months of practice, their voices grew in richness and polish. At the Spring Concert in May, the Chorus displayed the excellent training which they had received from their director Sister Anne Virginia.

Freshmen receive invaluable experience in the Chorus, but most of all, the time they spend singing is one of the most pleasant memories of their first year at St. Agnes.

Tapping toes are often detected at St. Agnes when the Band practices its zippy marches and gliding waltzes. Hours of patience and persistence in smoothing out each note and measure finally result in the band's delighting their audience.

Under the direction of Sister Agnes Teresa, the theory of sound is diligently learned by each member, until soon it becomes an enjoyable task especially when it is put to practical use producing catchy strains of melody.

Our band at St. Agnes is only in its second year but it has already acquired the precision of more experienced groups. At the Christmas Party and Spring Concert, the ease with which they displayed their talents under the guest conductor, Mr. Richard McCrystal, and the enthusiastic applause of the audience proved that their time and diligence are well worthwhile.

ENERGETIC ATHLETES in the persons of Dorcas Holmes, Barbara Nowack, Arlene Helget and Sharon Kelly get their equipment for some peppy games of ping-pong and badminton.

Is your mind tired? Are your nerves on edge? Do your legs give out from under you? Relax — take part in sports.

At St. Agnes, our sports program is both large and accessible. Girls may participate in exciting and swift-moving games of basketball, volleyball, baseball, and soccer between homerooms; then, the champs of each class compete against other homeroom champs in finals.

If you aren't actually participating in the game, by the way, you can sit in the bleachers (or, if the game takes place outside, on the lawn) and shout, cheer, clap your hands, stamp your feet, *anything* to give your team spirit and help them win the game!

After the game is over, however, as we see the handshakes and pats-on-the-back between the winning and losing opponents, we know that good sportsmanship prevails at St. Agnes!

Our enthusiasm for sports

"THE LAST SHALL BE FIRST," doesn't always apply in a ballgame, so Kathleen Weber and Patricia Goodbody try for the "first-ups" as Arlene Gaiter and Carol Binnert watch, hoping for their side's luck.

PATRICIA FLYNN, Carol Vahl, and Janice Tagliamonte are friendly adversaries in a fast-moving game of shuffleboard.

"FORE" is yelled by every little chipmunk in the woods as Leslie Delmege aims for a hole-in-one with the silent encouragement of Maryalice Palmer.

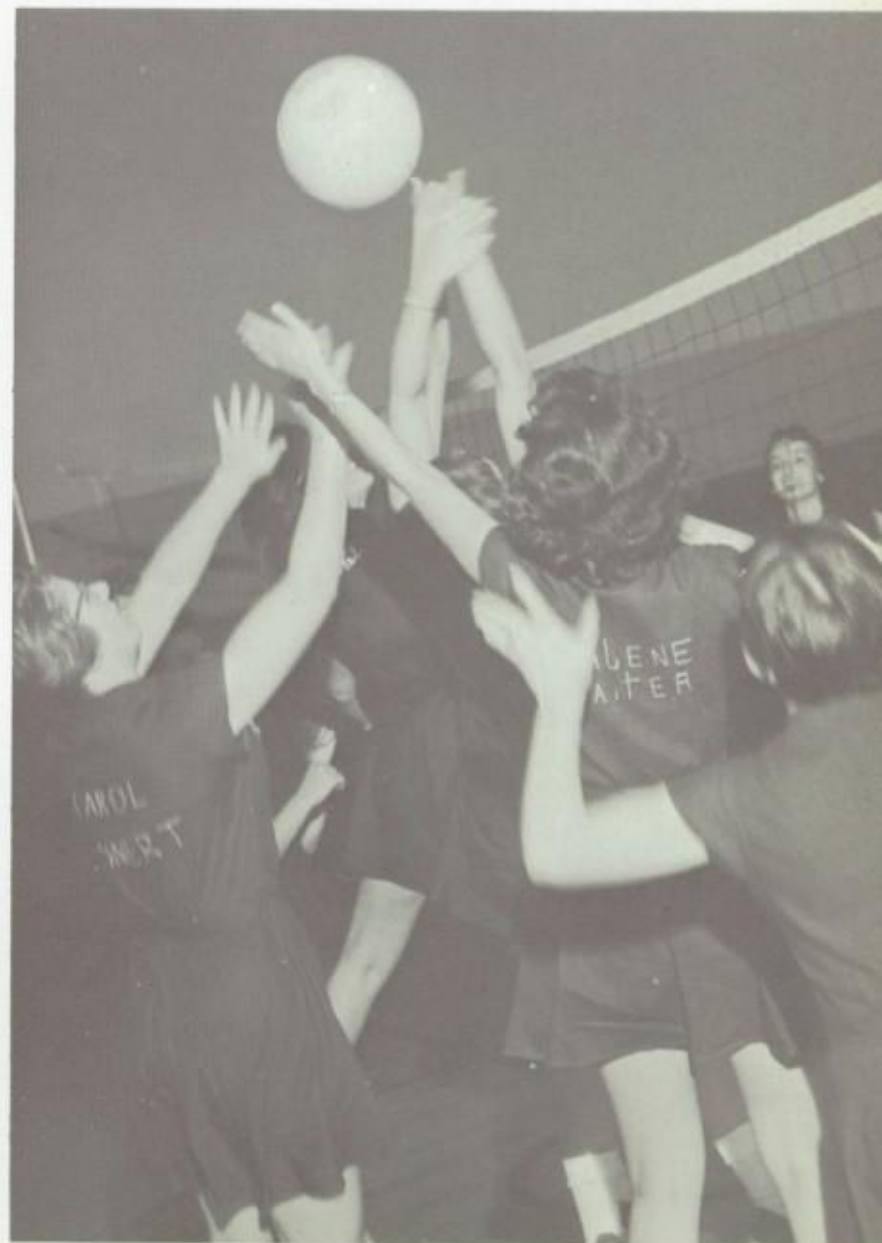

DOROTHY BEISHEIM and Judith Woods look as if they have worked out a dance routine in their badminton game against Joan Button and Dorothy Munch.

mirrors our readiness for fun.

During the spring, while the sun shines brightly on the greens of the campus, SAH golf enthusiasts are there, busily mastering the techniques of achieving holes-in-ones. These future Ben Hogans drive golf balls perseveringly until they acquire the ease and perfection of "pros."

For Seniors interested in the adventurous sport of camping, more outdoor fun is in store for them. Besides learning the correct method of pitching tents, the girls are taught what to do if they should ever meet eye to eye with a snake. They also learn how to administer First Aid in case of injury, (or snake bite). In the spring, the girls had an invigorating week-end camp-out in the back woods of the St. Agnes campus.

AT LAST YEAR'S SPORTS AWARDS ASSEMBLY, Patricia Williams, representing the winning Junior Class basketball team, proudly accepts the plaque from Judith Ackerson and Virginia Ryan, G.A.A. Officers.

WHICH PAIR OF HANDS will be the lucky ones? is the question as these volleyball enthusiasts str-r-etch to hit the ball.

CLARE KEARNS HESITANTLY curtsies to Governor Stillson as her husband performs the introductions. Sheriff Carvey and Jerry Kearns look on, while Mrs. Short, Miss Stephens and Mr. Smith remain obviously unmoved.

"IF IT'S NOT LEGAL, we might be arrested." This innocent remark by Miss Norris sparks the idea in the minds of Rowland Kearns and Anson Kolby; Mrs. Potts sits by, more interested in her sore feet.

"OKAY LEW, hand over the rocks." In Maggie's dream, the gun slinging Anson Kolby attempts to threaten the pistol packing Rowland Kearns, as the gun molls, Mrs. Potts and Miss Norris, stand by.

TO GAIN THE VOTES of the Dairymen's League, Mr. Kearns' arrest is toasted in milk for the benefit of the newspaper women.

Seniors perform superbly.

Poor Maggie! She was always worried about doing the right thing in front of her friends and had tried so hard to have her family cooperate. Up till now they had at least tried, but now Father had ruined everything. He had actually gotten himself arrested for not paying a delinquent tax bill!

Naturally, the presence of Father's unusual associates, Mrs. Potts, Miss Norris, and Mr. Kolby, did not help any. If it hadn't been for her mother, Maggie's social life might have been completely demolished. As it was, of course, Maggie managed to survive the entire ordeal, and thanks to Governor Stillson, was restored to the good graces of her friends. Hilariously horrible dreams at the close of each act showed Maggie's inner fears in their worst possible forms and convulsed the capacity audience.

The Senior Class presented this drama, "Dream a Little Dream," with a spirit of fun and reality. They convincingly conveyed a glimpse—exaggerated but true—of the turmoils and tribulations a teen-ager can get wound up in.

Delighted to put it on, dismayed to find it over so soon, the Seniors loved and were proud of "Dream a Little Dream."

Christmas joys

The Junior Class celebrated Christ's birth in Merrie England this year. In the holly-decked halls of the manor house of Sir Geoffrey and Lady Eleanor, the wonderful Christmas spell of love, humility and happiness was displayed — that miracle which has been enrapturing people all over the world since the birth of the Christ Child. Rich and poor mingled together in joyful spirits, forgetting the wrongdoings of the past.

Sir Geoffrey, a rather too proud knight, had a surprise painting for his guests, but he is equally surprised when the "victorious warrior" turns out to be the small Prince of Peace and His Holy Mother.

Bright costumes, charming caroling, unusual staging and a real live baby combined to make this a captivating Christmas entertainment, reflecting the true spirit of the gay and holy season.

"We could

ALL THE POMP and splendor of the Victorian Age made an elegant setting at last year's Senior Ball. Here Elaine Hondorf and Kathleen Rich (behind that palm) with their dates, admire the sparkling fountain at Our Lady's shrine.

WOULD THOSE SMILES have disappeared if Sheila Duffy, Gail Bristol, Andrea Wollensak and their dates knew that witches were hovering over their heads at the Mission Dance last Fall?

IT WAS LIKE a family reunion at the Senior-Alumnae Christmas Dance where half the fun of the evening was finding out the latest word from fellow graduates. Here Anne Mura and Virginia Ryan, Class of '58, are ticket-takers for fellow-alumnae Patricia Emanuel, Patricia Fleming, and Judith Ryan.

have danced all night..."

Crimson and gold leaves scuttled along sidewalks on Halloween Eve with all the little "tricks-or-treaters," and that evening they also ushered St. Agnes students up to delightful moments at "Halloween Fantasy" — the annual Mission Dance.

Christmas time was filled with frosty snowflakes, ringing bells and excited, busy Seniors. They were preparing for "Candy Cane Cotillion" — the very first Senior-Alumnae Dance. Seeing the "old" Seniors again was one of the happiest moments of that December evening.

Lacy Valentine mobiles and flaming red hearts disguised the gym on February 6th when the Student Council presented "Hearts in Harmony" — the annual Valentine Dance. Spot dances and a dancing contest judged by Radio and TV Announcer, Eddie Meath, were the high-lights of the occasion.

EDDIE MEATH of WHEC-TV crowned Sophomore Ann Ledoux as Queen of the Valentine Dance after she and Terry Baumer had topped runners-up Sandra Shatzel and Denny Owen in the Dance Contest.

ON THAT DAY AFTER the night before, untangling fish nets was much less elegant than dancing among them in the setting of "South Pacific" — the theme of the Junior Prom! But it's almost as much fun, as these "cleaner-uppers" could tell you.

The magical spell of Bali Ha'i descended upon St. Agnes in April at the Junior Prom, "Some Enchanted Evening." Elegant decorations brought the palm trees, coral sands and sparkling waters of the South Pacific right to St. Agnes.

On June 19, Seniors, still hearing the majestic organ strains from their graduation the night before, came together for their last function as the class of '59. Soft lights, fragrant flowers, white ball gowns and tuxedos, and the sentiment of the evening, combined to make this the most memorable dance of the four years at St. Agnes.

ANNE MURA, Class of '58, served tea to members of the Mothers' Club at the annual spring tea put on by the Home Economics students.

MOTHERS' CLUB OFFICERS, Mrs. Joseph Ryan, Mrs. Marie Ritz, Mrs. Raymond Weis, and Mrs. Paul Gears were planning to "step out" for a Club-sponsored Fashion Show at Sibley's in Southtown Plaza in March.

We will

Every second Monday of the month, the mothers of St. Agnes' girls can justifiably be excused from a few of their household chores, so that they may join in the fun and work which the Mothers' Club meetings provide.

Throughout the year, a variety of entertainment is planned for the members, including the Mother-Daughter Christmas party, the April card party, and even a "chapeaux" fashion show sponsored by the Marks' Hat Shop. In May, the Mother-Daughter Communion breakfast was held with guest speaker Father John Havas, S.J.

Besides these events, our busy mothers had a White Elephant Sale in January and a Red Cross Work meeting in March.

Of course, a meeting wouldn't be complete without refreshments, so a delicious lunch and bubbling conversation always rounded off each meeting.

AT THE MARCH MEETING, Mrs. Cali learned how to make these "cute" stuffed animals from Mrs. Hofschneider, an adept demonstrator from the Red Cross. Later, some of the Mothers' Club members got together and made them as a Red Cross project.

IN HER PRIZE-WINNING ESSAY on "Why My Father Should Be Father of the Year" Sophomore Karen Kirby convinced the judges, and Mr. Kirby has been the "top" St. Agnes Dad for this year, as he's always been for Karen.

AT THE FUN-FILLED TURKEY FESTIVAL last November, Mary Smalt handed over this scrumptious turkey to a lucky winner, Mrs. Kelly. Daughter Sharon looks as though she can taste it already.

Usually it is truly a "woman's world" at St. Agnes, but every third Thursday, the men — our own fathers — take over. Good hearty laughs and delicious food fill the time they spend with Father Le Veque talking over ideas and plans at the Fathers' Club.

Each month our fathers hear interesting guest speakers such as Father Austin Hanna, Mr. John Temmerman or the John Fisher Debating Club, thereby broadening their knowledge of timely affairs. (And, by savoring each scrumptious smorgasbord, they also broaden their waistlines!)

In November, our fathers seem to be the busiest. Then, they select the turkeys, plan the booths, and tune up their auctioneering voices for the Thanksgiving Festival, the success of which always exceeds our most hopeful expectations.

especially remember our parents.

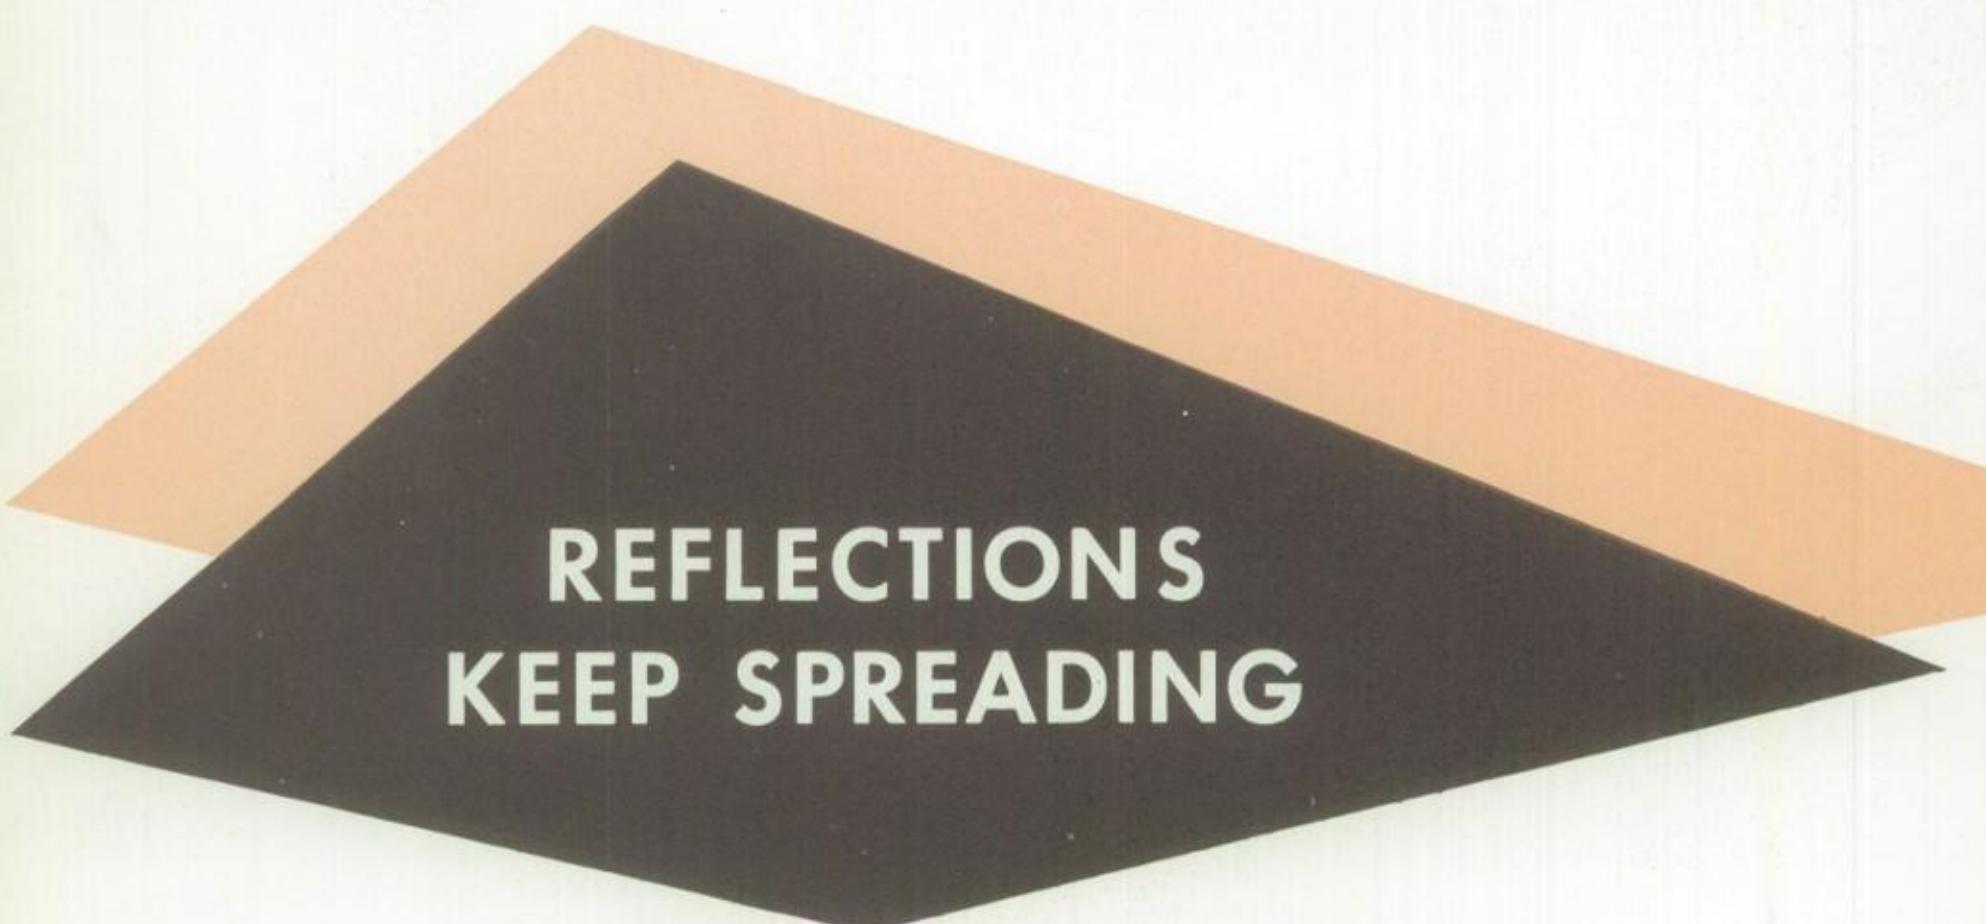

MR. RAYMOND WEIS presents this check — the result of the Thanksgiving Festival — to Sr. Rose Alma who, with Mr. Orin Fromm, Mr. Robert Way and Father Le Veque, can visualize already the landscaping for which the money will be used.

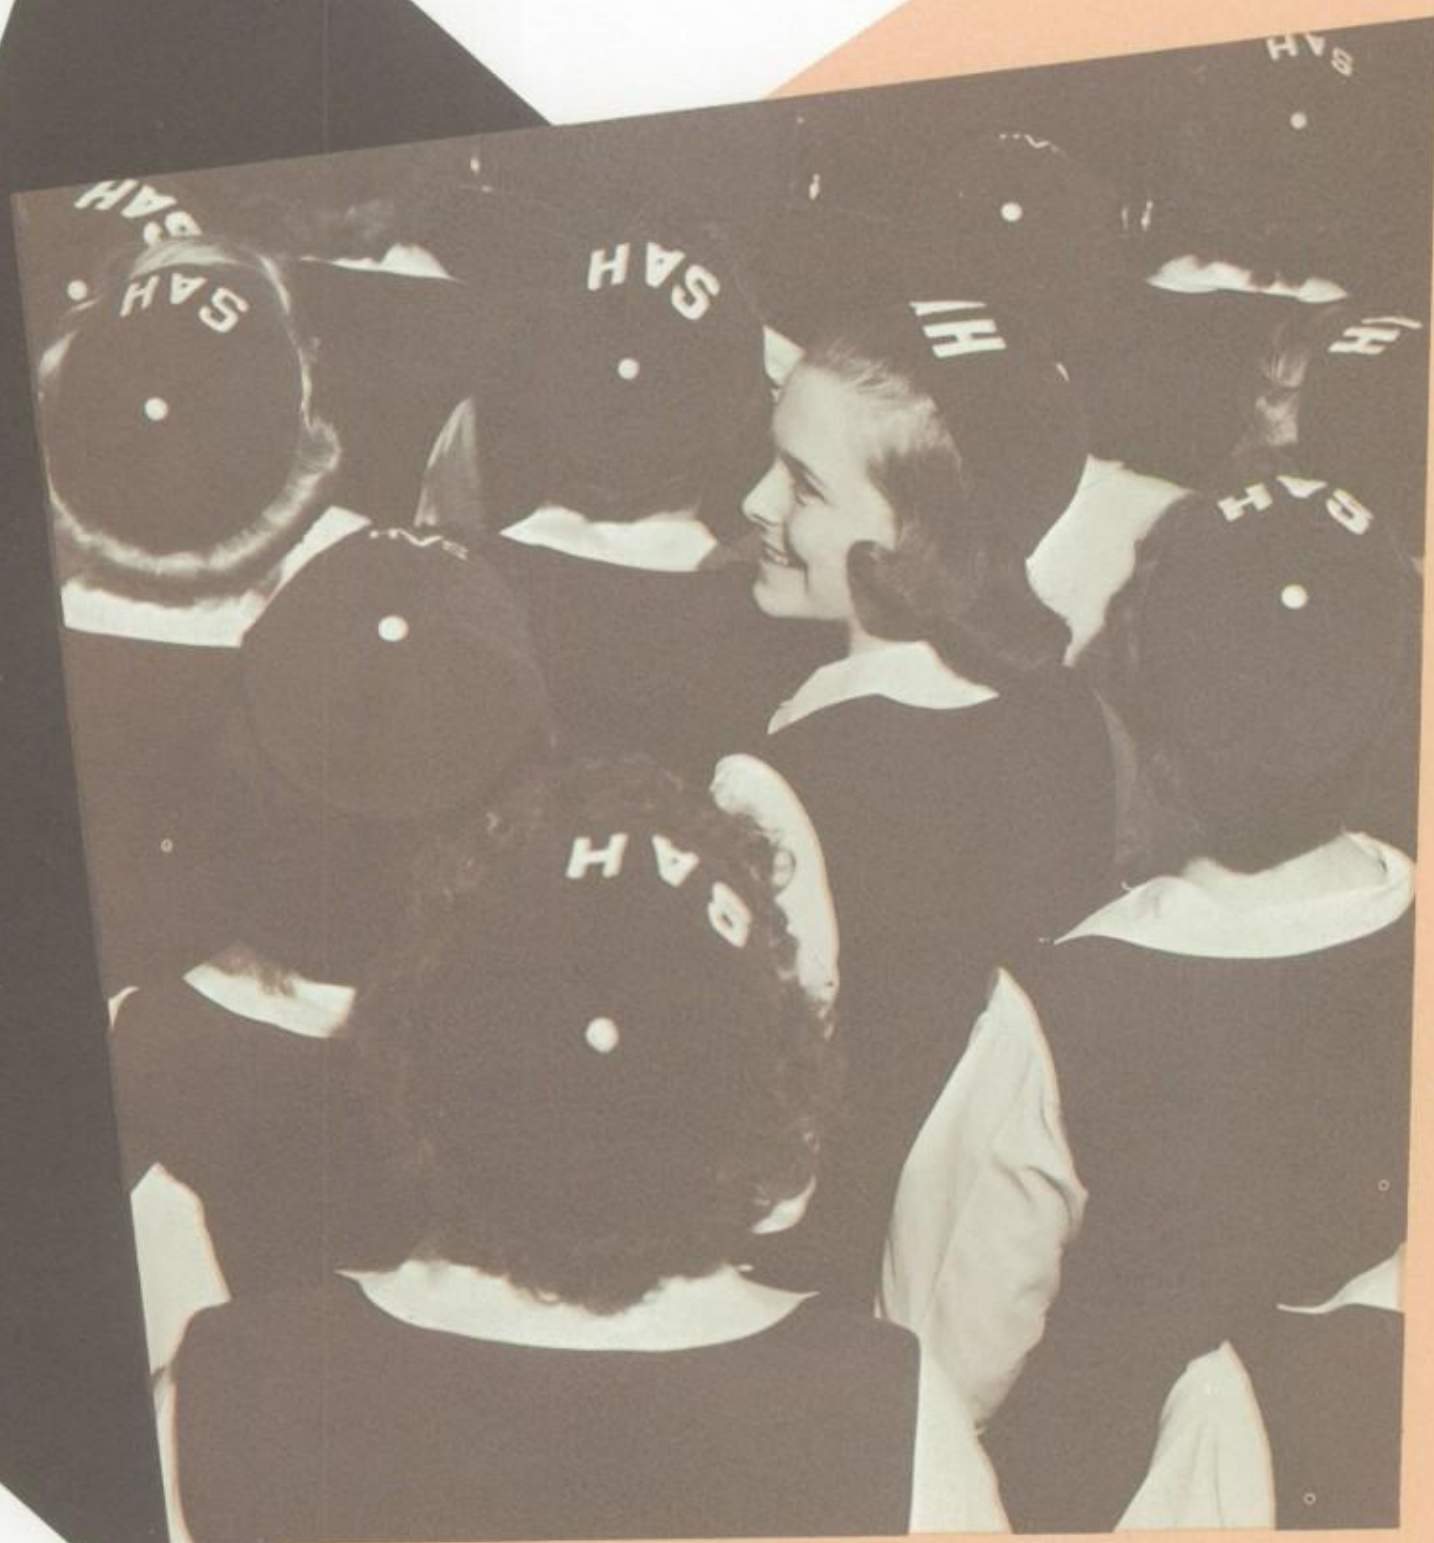

Every day each of us steps a little closer to our goal of graduation. Not only the Seniors anticipate that moment, but under-classmen reflect on its becoming a reality, too. As we grow in ambition, enthusiasm, and friendliness, occurrences of our high school days are filed away as memories, so that our "togetherness" will be kept through these thoughts.

Each moment as an underclassman is important. The determination and vitality of a Senior does not come suddenly, but increases gradually, as we wind our way through our Freshman, Sophomore and Junior Years. As we cultivate our talents, we learn, too, that moments are happier when spent in giving rather than in receiving.

Each reflection as an underclassman is a memory of the past or a light into the future.

**REFLECTIONS
KEEP SPREADING**

PLEASANT, PEPPY, AND POISED are the Freshman Class Officers: Nancy Gianforte, President; Patricia Cooper, Secretary; Jennifer Miller, Treasurer; Roxanne McDonald, Vice-President.

Those who receive

Each year, the Freshmen, Sophomores, Juniors, and Seniors have separate assemblies to determine who will represent them as class officers throughout the coming year. This is an important procedure, for these representatives must be capable of handling great responsibilities — keeping their class united by promoting class spirit, and of undertaking many projects and activities with their classmates.

Students who were chosen as class officers this year carried out their duties willingly and successfully. Each officer possessed such qualities as leadership, initiative, friendliness to all, and, most important, a good sense of humor.

Of course, it isn't just "follow the leader," for all the members of each class do their part by taking interest in class activities, cooperating with their elected representatives, and giving their talents as generously as though they were the ones in the spotlight.

SOPHOMORES WERE LED by this trim trio, after their "fourth" moved away; Andrea Wollensak, President; Patricia Kreckel, Secretary; Linda Spoonhower, Treasurer.

TOPPING THE JUNIOR CLASS were: Maureen Mooney, President; Martha Slavin, Vice-President; Judith Kramer, Secretary; Monica Weis, Treasurer.

TOPS IN THE JUNIOR CLASS are Katherine Noll, Anne Eckl, Ann Marie Rappl, Mary Alice Laumeyer and Jacqueline Vallot.

must be generous in giving.

All during the year, significant "specialties" occur aside from the usual daily routine. These are the honors signifying excellence of work which we merit, sparking our determination and enthusiasm, and polishing the prestige of (and also our pride in!) our school.

Long scholarship lists of 90 + students after each report prove that sometimes "burying your nose in a book" isn't such a bad idea and definitely produces results.

Essayists and poets have brought honor to St. Agnes, too. This year seven Sophomores were top winners in the "National High School Poetry Contest," and two Seniors rated "first" and "second" in Monroe County in an essay contest on "Hire the Handicapped" sponsored by the American Legion.

On March 14th at the Diocesan Science Fair at McQuaid, our own Lavoisiers and Einsteins walked off with top honors — first place in biology, first place on group biology by the Sophomore Science Club, second place in chemistry, and seven ratings of "finalist."

Besides each of these more evident rewards, however, each of us continuously tries to reflect credit on our school by wearing the uniform with pride and respect, bringing others to know and honor St. Agnes High School through us.

LOIS YOHONN, GAIL WEGMAN, LINDA SHEEHAN, Sally Beecher, and Karal Marling are the highest in scholastic average in the Sophomore class.

SOME OF THE FRESHMAN STUDENTS who have maintained an average of 95% or above since their entrance into St. Agnes are Mary Owens, Karen Krapf, Lorraine Bocci, Kathleen Thaney and Barbara Dobbertin.

ambition's fire

Snowy-white blouses, wrinkle free and shine-less uniforms and highly-polished shoes are sure signs of a Freshman. Besides these marks, Freshmen seem to have an air of cautiousness as they wander through the long halls of S.A.H., surveying all the new sights which lie behind classroom doors. Their wide-open eyes watch the treasures which are unfolded in books and experience as they step into this new phase of their lives. Freshmen begin their high school days with vim and vitality which soon results in their becoming "Agneses", possessing sound principles and high ideals.

The stiff shyness of their first days is softened as the Freshmen start to find new friendships and get that "togetherness" feeling. After the first few weeks, Freshmen get into the swing of changing classes, having a different teacher for each subject and opening combination-lockers with speed and accuracy. They soon can find the library or bookstore or especially — the cafeteria, as quickly as any of the upper-classmen.

surging with hopes and dreams

The Class of '62 abounds in all kinds of enthusiasm, carrying on the rich traditions of St. Agnes. They vied for top position in selling tickets for the Thanksgiving festival and won highest honors. As a result, homeroom 301 traveled to Syracuse early in December for a "Cinerama holiday."

On November 26, colorful skirts and sweaters replaced the usual uniform, announcing subtly to the rest of the school that the Freshmen were anticipating a traditional treat — the annual skating party with the first year students of McQuaid.

Towards the end of the school year, the Freshmen displayed graciousness and poise as hostesses during the Registration of the incoming class. To them they typified the special spirit of St. Agnes.

Growing in maturity, Freshmen come to realize that life is not just "a bowl of cherries." So they learn quickly how to study efficiently. Algebra and Latin are brand new experiences but, after practice, they begin to master the mysteriousness of the slippery "x" and learn to control the confusion sometimes caused by conjugations.

The long, long list of Freshman scholarship students, which comes out after each quarterly report, proves that they have settled down, learning to think for themselves, indeed adding to their stature.

Our Freshmen are not only book worms but also peppy participators in extra-curricular activities. With enthusiasm abounding in Freshman Chorus, Sodality and all the sport activities in which they participate, the Class of '62 is a nice and necessary part of our life at St. Agnes.

This year, since St. Agnes' family has grown so extensively, Sophomores revised the traditional Frosh-Soph Day when their sparkling enthusiasm was showered on the Class of '62 in a very special way. Scores of games and contests highlighted their "barrel of fun". Freshmen strutted through the halls modeling self-fashioned bows atop their heads while discerning Sophomores secretly selected the very best one. Hula-hoopers displayed the excellence of tricky techniques in a hula-hoop contest.

An extra dose of determination was needed by the Sophomores this year because their curriculum was made a bit more difficult by the addition of Biology to their schedules. Each quarter, the long, long list of Sophomores maintaining an above ninety average proved their capabilities for meeting this challenge.

Second year events are neither soon forgotten nor unimportant. Since they teach Sophomores how to live, love and work together, they are like a red carpet ushering the Class up toward the even higher aspects of Junior year.

Our Juniors increase in

"LOOKS LIKE YOU'LL HAVE TO KEEP IT," says Mr. Killip as Jacqueline Giudici finds the "ring-measurer" will not come off. Other Juniors, Alice McCormick and Rosanne Lambase, delightedly await their turn to be fitted for those all-important class rings.

Savoring each moment of "sweet-sixteen life" and striving to live it by sound principles are the aims of the Junior class. Now having a broader knowledge and more mature approach, the Juniors are beginning to be set on their ambitions for the future, and are trying to plan carefully for their ultimate goals.

An outstanding spirit of cooperation and genuine "niceness" has always been shown by the Class of '60. In December, they proudly presented their Christmas play, "Sing Nowell," for which many of the actresses cleverly created their own costumes.

Each Junior who went to her class "Splash Party" in November, certainly has many refreshing memories of that fun-filled occasion. The class really "kept the ball rolling" at another event — a bowling party at the Brighton Bowl in December. "Strikes" might not have been made by every girl, but the affair was truly a "hit" for everyone.

Juniors earnestly pursued their studies with extra-special care this year, for, well-aware that an educated mind is an important factor in their future, they were more prudent and diligent than ever in their every-day studies.

If, throughout the year, you observed certain girls with their noses perpetually buried in books, they were undoubtedly English III students perusing Barrie's plays or Leacock's essays or Merton's autobiography.

Fusion Mathematics, a combination of Intermediate Algebra and Trigonometry, was offered for the first time this year and taken up enthusiastically by the more mathematically-minded members of the class.

With these and American History and Latin III and Biology and more, the Juniors' schedules were full this year; but their efforts met the challenge, for, as usual, their class scholarship lists were rewardingly long.

Juniors experience many happy events leaving pleasant memories in their hearts of this third year of high school. The Junior Prom is one of the most eagerly awaited events of the year.

As St. Agnes grows, new traditions are inaugurated while old traditions are sometimes changed a little or even discarded. Formerly, the Junior Prom was held at Christmas time, but this year the first Senior-Alumnae Dance took place at Christmas instead. So the date of the Prom was changed to Easter vacation in early April. Although it was quite difficult waiting three extra months for their dance to come, the Juniors savored every moment of delicious anticipation.

and the beauty

One day in September, our Juniors seemed to be extra, extra pensive — not because they were studying too hard (of course, they always study hard) but because they had some serious thinking to do, for Student Council elections were being held that day and the Class of '60 wanted to be absolutely certain that their choices would prove worth-while.

Grins and smiles soon returned to the faces of the Juniors, showing that they were well satisfied with the results of the elections. Dependability, leadership, and friendliness were characteristic of each representative. Red, yellow, green, blue and white mittens flashed all around St. Agnes during wintery days until suddenly late in January, when this array of colors disappeared from the Junior Class. They didn't seem to mind the cold freezing their fingers a bit, but, of course, there was a very good reason for it. On January 28, the Juniors received their long-awaited class rings and were eager to display them conspicuously.

From September almost to February, the Seniors were the only wearers of the ring. Then, on that memorable day when Bishop Kearney came to bless their rings, the Juniors began to glow with the special pride and satisfaction of knowing that they, too, were fast approaching Senior year.

AS TIME STEALS AWAY,

- ... reflections slip into memories. Soon the friendships and special occasions which we have known will be kept only through remembrances of our days together.
- ... our thinking becomes more profound, increasing our appreciation and understanding of the life which we are about to face. Remembering our good friends, the fun we have had, the standards we were taught to live by, and the goals we have reached in the past, will ease the sadnesses and disappointments which may occasionally arise in the days to come.
- ... our more mature expressions reflect the love for truth and beauty which we have acquired both by respecting the thought of others and learning to think for ourselves.
- ... we seem to have a special glow, reflecting a certain satisfaction of having reached a goal. Our love and enthusiasm for St. Agnes High School is mirrored by our pride in being the Class of '59.

**REFLECTIONS
ON
BEING
A
SENIOR**

CONSTANCE CAVALLARO

During the past four years, old friendships have been strengthened and new friends have been made, linking us closely together.

In the midst of our high school days, this chain seemed to be broken, for on July 5, 1957, the summer before our Junior Year, Bonnie Cavallaro was called to God. At first, we failed to realize that God, in choosing one of us, paid her and us the highest of compliments that day, but subsequent reflection has made us aware of this. The chain was not broken, but has become stronger, for we have been linked with heaven in a special way.

Remembering that Bonnie was always truly good wherever she was, whatever she was doing, has influenced each of our lives. We shall never forget her in our thoughts and prayers, as we wish to show by dedicating to her our record of Senior Reflections.

Many remembrances of school life remain in the Seniors' minds for a long time to come, but especially those of their final year at St. Agnes. The leaders of the Class of '59 stand out among these cherished memories, for it is these students who have always "put their best foot forward" and given willingly of themselves, their talents and their time to their class and school.

However, a multitude of girls whose names were never brightly "in the spotlight" during these four years did tremendously much for St. Agnes by their fine cooperation with their teachers and their friends, by their active and warm participation in all school projects, and by just being the fine and loyal SAH students they always were.

These are the Seniors who will always be remembered in future years.

ALWAYS AT THEIR BEST were our Senior Class Officers
Maureen Egan, Vice-President; Carol Ballard, Treasurer; Elizabeth
Snyder, Secretary and Alisann Alexander, President.

We present our own Hall of Fame.

THESE PROUD, SMILING FACES belong to the top-ranking scholarship students of the Senior Class: (back row) Arlene Helget, Patricia Burke, Mary Ann Berg, Linda Dominik, Dolores Holz, Roberta Nowak, Helen Elizabeth Schnacky, Karen Weiss, Barbara Hoffman; (front row) Carol Ballard, Dorcas Holmes, Alisann Alexander, Judith Weber, Sharon Kelly, Angela Foster, and Jean Rodman.

THESE "LITTLE GIRLS" are now our dignified Seniors! Back in their Freshman year Mary Naughton, Carol Wilfeard, Patricia Burke, Nora Maxwell, and Carol Ballard were among the S.A.H. girls who attended the Mission Scenerama.

All sorts of green shades naturally tinted the class of '59 as Freshmen. Not having had time to warm up to the friendliness which abounds at St. Agnes, they were awed by the dignity of the upperclassmen—especially the "lordly" seniors whom, incidentally, they outnumbered seven to one. However, the "enormous" size of the class didn't detain them a bit from quickly acquiring the family spirit which prevails at S.A.H.

Getting down to "brass tacks" was a tedious task but they were soon settled and in full swing. In October, 1955,

they had their first opportunity to bring honor to St. Agnes. Pencils in hand and thinking caps on tight, they wrote a five hundred word essay on "The World's People Are Our Neighbors — What Can We Do for Them?" This was a diocesan-wide contest sponsored as part of the Mission Scenerama held at the War Memorial that year. The class was both excited and proud when it came up with a winner—Laurie Valerio, who received her award from Bishop Fulton Sheen's own hands on the stage of the War Memorial.

More activities began to be added to the "extra-curriculum" as St. Agnes adapted itself to the growing number. A Freshman Chorus was formed, with the Class of '59 as the very first members. Each week they practiced fervently under Sister Anne Virginia's direction for their debut at the Christmas Assembly. Winning deserved praise then, they redoubled efforts for the Spring Concert when they proudly performed with the Glee Club.

In February, when potential St. Agnes Freshmen came to take the scholarship exam, the Class of '59 acted as poised and gracious hostesses. They presented on the stage "The Cafeteria

Angel" which told the eighth graders in a clever way all about life at St. Agnes High School. Sharon Kelly wrote the skit which won over others entered in a contest held in Sister Stella Regina's English class.

Toward the end of their first year, the class again showered their charm on their future "little sisters" during the Registration Days in May. They conducted guided tours which quite wore out some of the accompanying parents, but which were perfect reflections of the pride and enthusiasm they had acquired during their happy Freshman days.

BACK IN THE GOOD OLD DAYS when the Seniors were just Sophs drawing names for their "little sisters", they looked like this. That's Rosemary Gall, Carol Van Nierop, Kathleen Herrmann and Kathleen Maher sitting at the desks, and standing around the name-filled beanie are: Mary Schwartz, Elaine Downey, Lucille Cali, Sharon Kelly, Annette Spinelli, Maryann Patti, Ann Collins, Viola Newton, Eleanor Blackstock and Judith McSweeney.

With uniforms a bit shinier, shoes a little less highly polished, friendships much warmer and eyes twinkling with eagerness, the "Fifty-niners" came back to school as Sophomores in September of 1956.

Cheers and squeals of excitement echoed throughout the first-floor halls of SAH one day that September. What was the reason for their elatedness? Student Council representatives had just been elected, and the final choices brought both delight and satisfaction to each homeroom. Mary Ann Lodato,

105, Josephine Valenti, 106, Sharon Reedy, 107, Maryann Patti, 109, and Carol Wilfeard, 110, were the lucky "reps."

Turkey time in November brought the very first Thanksgiving Festival to St. Agnes. The present Seniors put up a fun-filled struggles to sell tickets for the festival. The Fathers' Club promised each homeroom that reached its quota an exciting evening at the Hockey Game. At the very last minute, when 105 finally reached their goal, the entire Sophomore class attended the game.

Puzzling geometry propositions and tricky Latin translations were pleasantly interrupted at the end of October, when the present Seniors became involved with preparing for Freshmen - Sophomore Day. While Freshmen had the jitters nervously wondering what they were up to, the Class planned unforgettable surprises.

A party look disguised the cafeteria with streamers and favors. Gaily wrapped gifts — rattles, bottles and bibs — reminded each Freshman that she was a "baby" at St. Agnes. The Class produced and directed a skit, "The Flying Saucer," in which Martians invaded St. Agnes and everyone in the auditorium had a sneak preview of future events.

At the end of the performance, tumbling balloons descended upon the audience from the catwalk, ending the day with a colorful climax.

In their second year, the '59ers inaugurated another new tradition at St. Agnes — the first Sophomore Dance. Bulletin boards were uniquely decorated to announce "Spring's First Song," named by Joanne Richardson and a contest was held to judge the best one. Homeroom 109 came up as the winner. The decorations at the dance were delightful, due to the careful planning of Mary Kay Clendenning. A sparkling fountain in a flower bedecked cafeteria and enchanting music are some of the memories the class will never forget.

It's been a long time since the Seniors played with dolls, but in their Sophomore year, they played "mothers" to one hundred sixty school age children and about two hundred tiny babies. The children lived in Inchon, Korea, at the Star of the Sea Children's Home. The new parents tried to fill the hearts of their adopted family with letters and packages to restore some of the happiness taken away by the crisis of war.

The Class of '59, with the other classes, were found feasting with their fathers at the first annual Father-

Daughter Dinner Dance held in May. After savoring a scrumptious dinner prepared in the cafeteria, they proceeded to the gym to spend the evening bunny-hopping and waltzing with their dads. Many of them were wide-eyed when their fathers proved that they could beat Arthur Murray any time.

As these big moments and less important occurrences ushered the Class of '59 into their Junior year, they were ready to take their place as the real upperclassmen of the school.

"STAR SONG", the Christmas Play presented by the Class of 1959 when they were Juniors, gave evidence of the skill and talent used again in the Senior drama. This scene will be remembered by all who saw the 1957 Christmas program, as Julia McGrath, the little crippled girl points out the Star to Alberta Harster, Kathleen Fischer, Joan Button, Karen Weiss and Nancy Ceterski, all portraying guests at the Inn.

As Juniors, the present Seniors applied themselves zealously to their studies, but had much fun in planning and presenting two big events which highlighted the year.

Their acting was "sensational" in their Christmas play, "Star Song" on December 20. In aiming for perfection, the Juniors practiced indefatigably for long hours after school; however, their efforts were rewarded and rewarding, for the play was truly successful. Junior

Glee Club members enhanced the spirit of the play with their "angelic" voices.

An Oriental setting was the theme of the class Prom, "Evening in the East", on December 27. Japanese lanterns cast a colorful glow on the gym dance floor, while the walls were gaily decorated with contrasting colors of gold, red, blue, and black.

These two occasions of their Junior year are treasured among the Seniors' happiest reflections.

In the Seniors' third year at St. Agnes, some people laughed. Some were even daring enough to try them, and the Seniors were of course, no exception. Soon everybody was an absolute nobody if she wasn't wearing a chemise—the very latest in vogue in 1957-58.

"Sacks" first appeared at St. Agnes at the Drama Festival that March. Those who wore them were in as bright a spotlight as the actors and actresses on stage and made almost as big a hit. In the evening a scrumptious dinner was served

to the hungry thespians who came from all the diocesan high schools. Although it was quite a trick serving while in a sack, our present Seniors were efficient hostesses.

Other fashions straight from the Twenties reoccured during 1958, too. From head, under a bowl type hat, to toe, pointed toes that is, everyone had a Charleston look.

At every school event, the Class of '59 showed they tended toward whatever Paris had to offer.

for knowledge.

Glowing pride and happiness beamed within the Class of '59 when they returned to school in September as Seniors. A bit of sadness was felt, too, as they began to mark off special occasions — the opening Mass of the Holy Spirit, the arrival of Senior Beanies, the first time they sang the last verse of the School Song — as last ceremonies at St. Agnes.

Summer fun was soon filed away as the Seniors settled down in a spirit of study anticipating graduation and their entrance into a more complicated world. College catalogs became the most popular books

in Senior homerooms. During September and October, thirty Seniors practically "lived" in the library absorbing and integrating knowledge for the State Scholarship Exam in October. Three times a week and even on Sunday, these Seniors diligently tried to store away every bit of information that was taught in special scholarship classes. Anticipating careers, other Seniors considered future positions practically and prudently.

With determination and enthusiasm, the Class of '59 combined study and fun—the magic formula for a happy Senior Year.

These are moments that

MOM'S LEARNING, TOO! Mrs. Manzella and Roslyn are absorbing knowledge together in French Class. Mrs. Manzella was one of the many parents who attended our school on Visitors Day during American Education Week.

WHO WILL BE THE HOMEMAKER OF TOMORROW? Perhaps it will be one of these Seniors. (First Row) Jean Rodman, Jean Culross, Roslyn Manzella; (Second Row) Kathleen McCusker, Audrey Augonis, Julia McGrath and Mary Jo Stanczuk are pensively preparing for the Betty Crocker Test.

Seniors will never forget,

As Seniors reflect on the events of their Freshman, Sophomore, Junior and Senior years, many happy memories, and also a few sad ones, come to mind.

Their happiest memories are the days which contained fun, togetherness, and that certain satisfaction resulting from work well done. They are comprised of the pleasure the Class of '59 has always joined to their schoolwork, the humorous incidents which often unexpectedly popped up, "family jokes", and all the other shared experiences.

Sad occurrences — usually small and yet significant — are also remembered by the Seniors. "Dark clouds" were prevalent on days when disappointments were met with, or perhaps when misunderstandings occurred between friends. These disheartening instances were of marked importance in the lives of the Seniors, for like the pleasant experiences, they left an imprint in their minds and hearts.

Happy and sad, these years have held treasured moments that Seniors will never forget.

Moments swiftly slip into memories,
but brief reflections will call forth pleas-
ant thoughts, as the Class of '59 remem-
bers the special events of Senior Year.

In December, with bells and snow in
the air, they anticipated the Christmas
Dance "Candy Cane Cotillion" — the
very first Senior-Alumnae Dance at St.
Agnes.

April brought flowers and spring and
the first closed Senior Retreat at the
Cenacle. Together they prepared for the
life they would each pursue alone.

A fourth "Date with Dad" evening in

May again aroused love and gratitude in
their hearts for their wonderful fathers
most of whom had sacrificed much so that
these four years at St. Agnes were pos-
sible for their daughters.

Very last occasions will be among the
Seniors' most cherished reflections — the
Senior-Faculty Picnic, the days when the
special issue of the *Essay* and their Year-
book appeared, the Senior-Parent Ban-
quet, the glorious Ball and, of course,
Graduation night itself when, with hearts
surging with love and loyalty, they be-
come the graduating Class of 1959.

"EASY, ISN'T IT" says Kathleen Weber as she shows her fellow Library Club
members how to stamp out a book. Other Seniors are Lucille Cali, Joan Le Sage,

"DOESN'T THAT CAMPUS LOOK GORGEOUS!" enthuses Barbara Hoffman to Carol Van Nierop and Linda Lee Dominik over a college brochure. Carolann De Lettera, Roslyn Manzella and Barbara Nowack are deeply absorbed in other booklets which may possibly portray their next year's "home away from home."

For three long years the Class of '59 anticipated the joyous day when they would be called "Seniors." Since that day arrived, however, they have come to realize that being Seniors means not only leading the other classes in "Senior-ity" but also possessing numerous little, but meaningful, privileges.

For a few days after the opening of school, only the special sparkle known to Seniors alone distinguished the Class, but soon their evident beanies arrived, marking them with evident distinction. The fourth Wednesday of each month was designated as "Senior Beanie Day" when

the Class could don their white caps for the entire day.

A tingling sensation pervades each member of the Senior class when she loyally sings the third and last verse of the school song, which traditionally may be sung only by Seniors. "When we must bid farewell to our loved school" holds special significance for the graduating class as is evidenced by the warm gratitude which may be discerned in their voices. Long after their high school days, memories of the school song will remain in the Seniors' minds, giving them the strength to "face life's battles bravely" and "fight for Christ, the Lord."

Our reflections will keep us together

Today we are where our thoughts have brought us. We are as great as our noblest thought, as true as our deepest desire.

With grateful hearts, we have reminisced over the past year, for we owe each of these cherished memories, each new thought, to our parents who have sacrificed to send us to Saint Agnes, and to our teachers who have given everything that we might grow in ideas and ideals.

Tomorrow we shall be where today's thoughts lead. In appreciation for all that has been given to us, we truly hope that our thoughts grow and expand each day, so that with fullness of heart and mind, each work will be the best we can perform, each word, the best spoken — making another's thoughts a little brighter and more enlightened as we meet him on the way to the goal to which we aspire.

BOTH THE EARLY AND LATE DISMISSALS find hoards of students piling out of the West Door to board the home-bound buses.

Dear Carol,

You are one of
the nicest and best
friends I have ever
had. I have enjoyed the
past three years with you
muchly! Best of luck to a
real sweet girl with a wonder-
ful personality. I'll think of you
about 1964 flying around up there!
Be Good and Love always,
Ann

Dear Carol,
next year we will have
lunch together again next
year. Love Bless you,
Dix

Dear Carol,

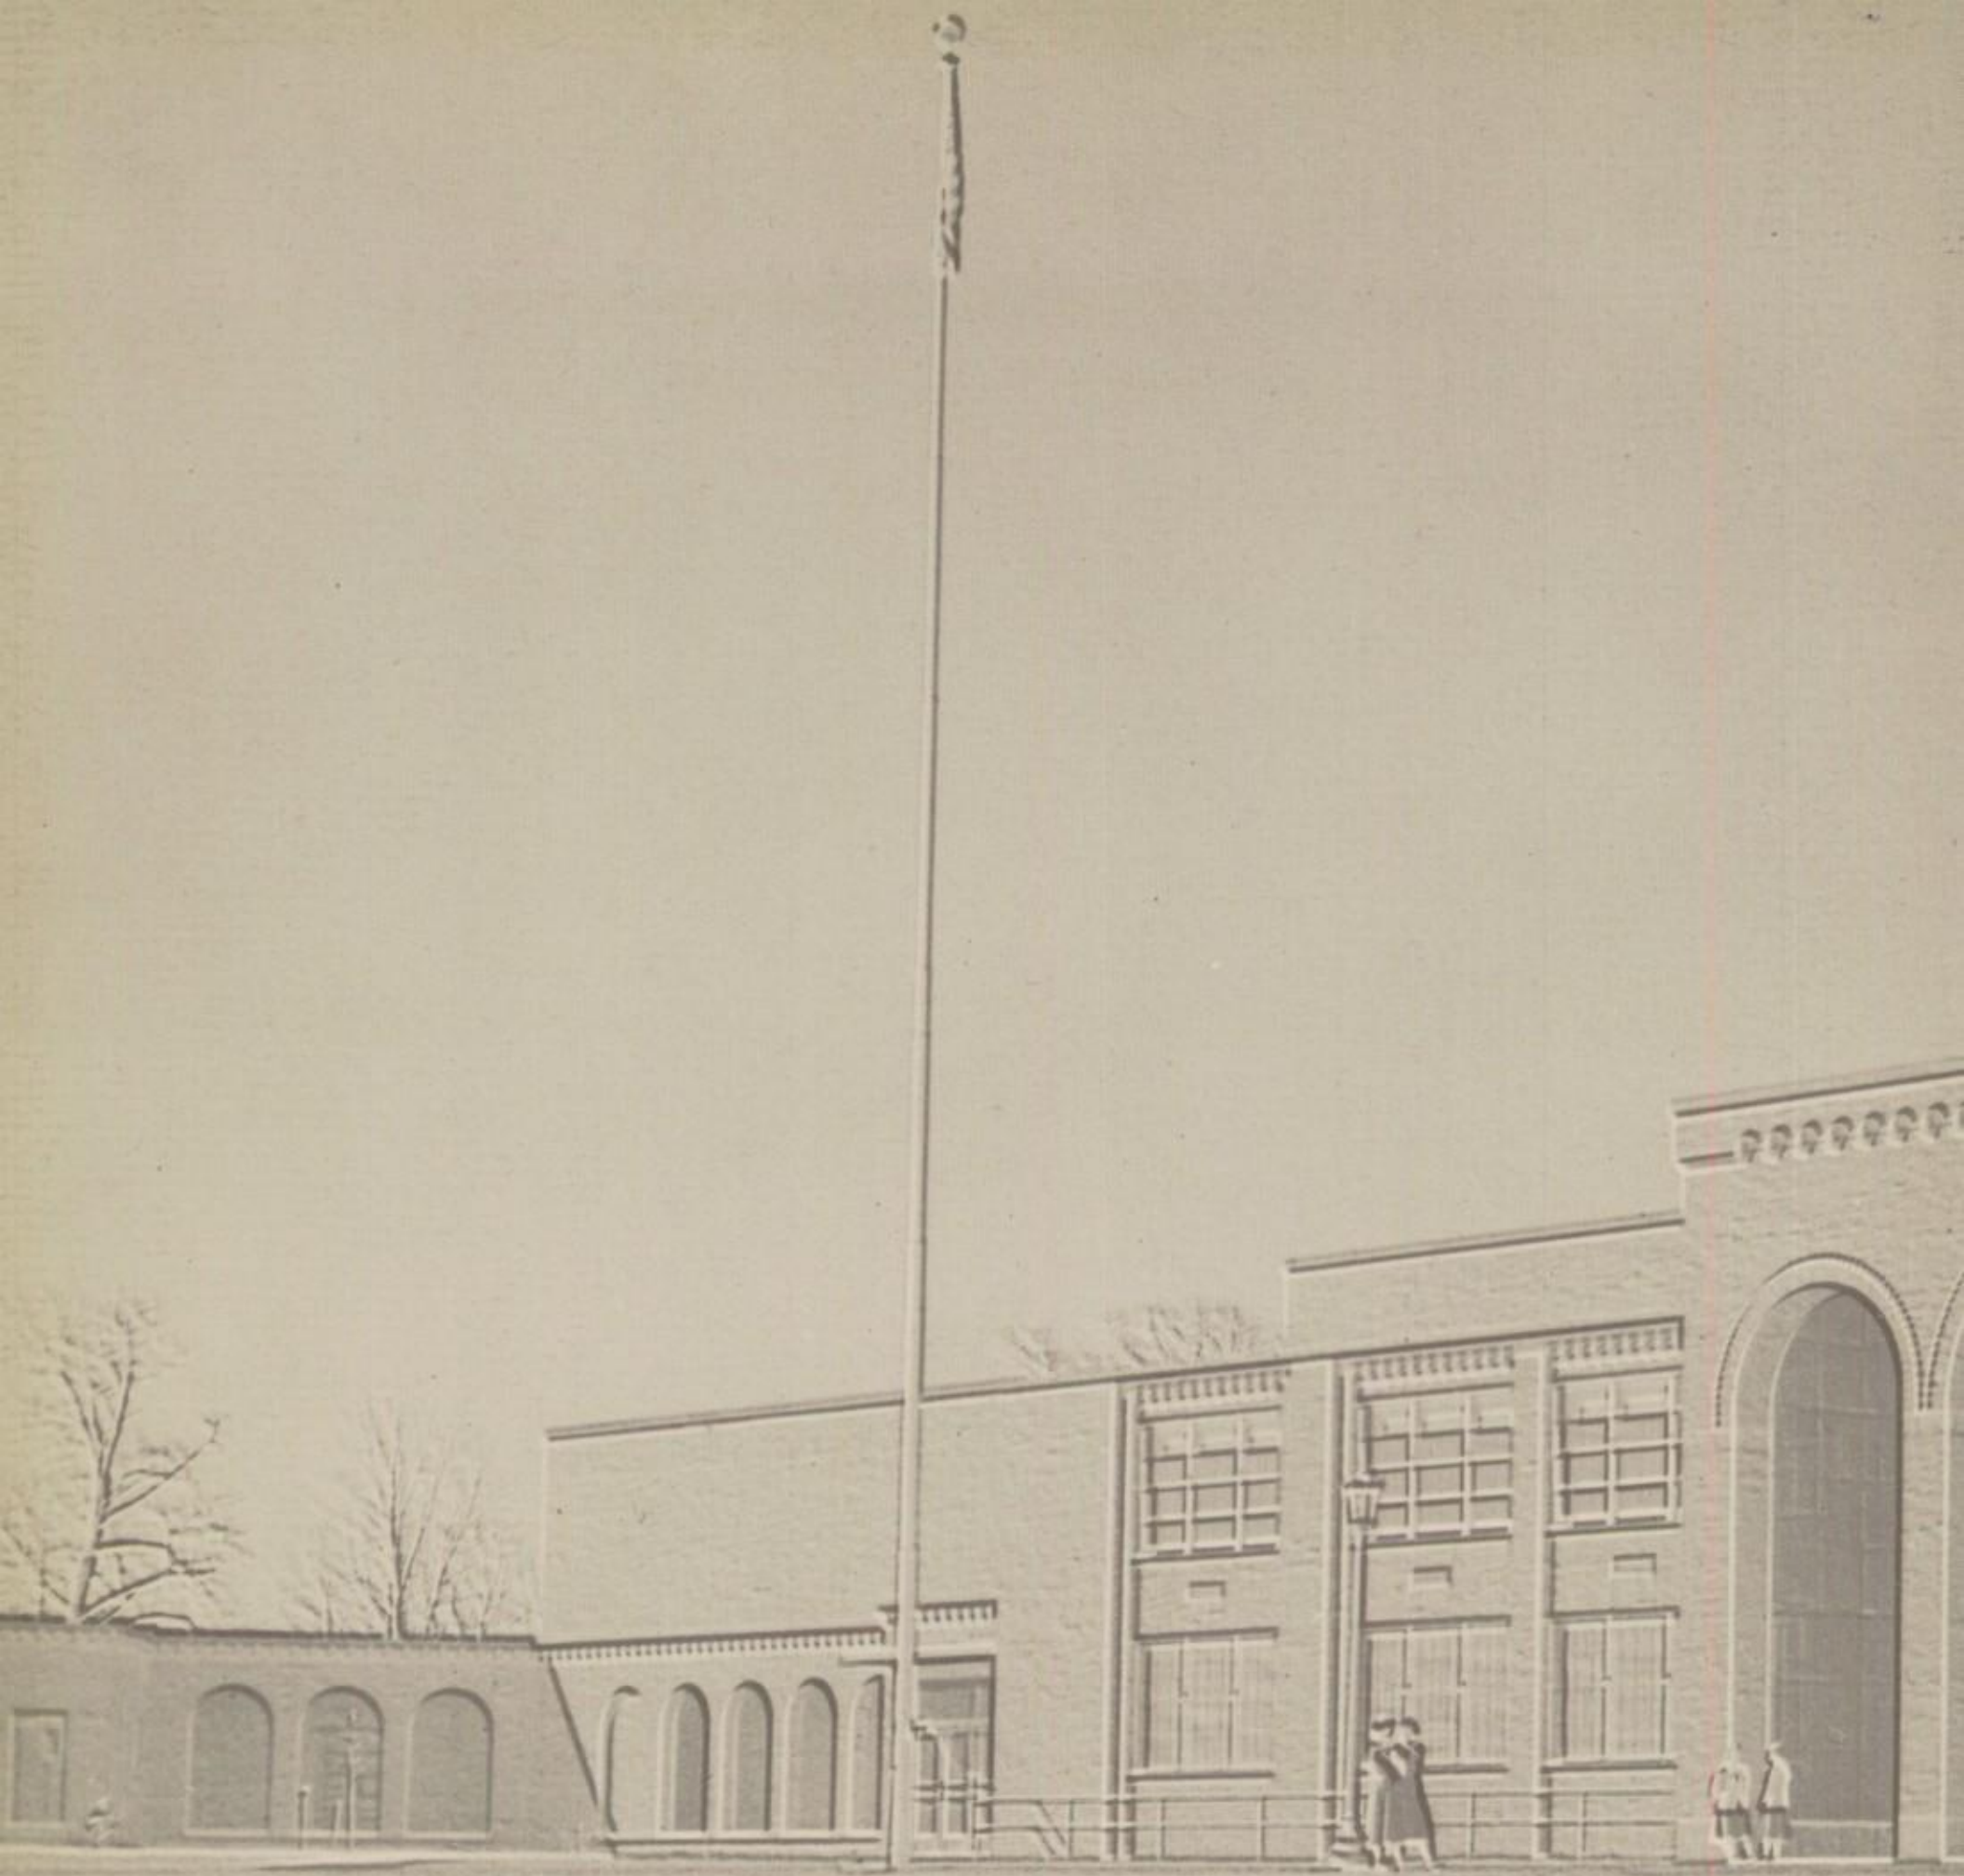

you a swell
kid. Best of luck
in the future.
Load of luck.

Dear Carol,
It sure has
been loads of fun
knowing and watching
you! We sure had fun
didn't it? Thanks
again for the wonderful
times you gave us
and the gossip we had
when I stayed overnight
and you are such a sweet
kid! I'll miss you in
the future!
Love
Dix

*"Now we must bid farewell
To our loved school..."*

Dear Carol -

This year tops everything! I'm sure we had tons of fun, huh? Let's not even forget those MOST DELIGHTFUL Health classes! I don't think either of us planned to much but it was fun anyway.

Remember all the talk we did about Quins and McQuaid's Junior Proms? They sure were fun!

If it (Health class) hadn't been right after lunch, we probably would have taken to eating in there too. He did everything else. Friday study halls were a big blast too. - All that time we spent in the lab. - That a waste!!

Let's hope we get together next year. Be careful with your driving this summer. If you hear a loud crack, you'll know. Ted and I are on our way out to see you and I'm driving. I have fun this summer. Say hi to Jim for me even though he doesn't know me.

Love,
Tom

Dear Carol

It is hard to express in words what I think about you. because you are such a nice kid
